

LSV

Conservative Core Equity Fund

Summary Prospectus | March 1, 2010

Ticker – LSVPX

Before you invest, you may want to review the Fund's complete prospectus, which contains more information about the Fund and its risks. You can find the Fund's prospectus and other information about the Fund online at www.lsvasset.com. You can also get this information at no cost by calling 1-888-386-3578, by sending an e-mail request to lsvfunds@seic.com, or by asking any financial intermediary that offers shares of the Fund. The Fund's [prospectus](#) and [statement of additional information](#), both dated March 1, 2010, are incorporated by reference into this summary prospectus and may be obtained, free of charge, at the website, phone number or e-mail address noted above.

INVESTMENT OBJECTIVE

The LSV Conservative Core Equity Fund's (the "Fund") investment objective is long-term growth of capital.

FUND FEES AND EXPENSES

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

Annual Fund Operating Expenses

(expenses that you pay each year as a percentage of the value of your investment)

| | |
|---|---------|
| Management Fees | 0.38% |
| Other Expenses | 0.35% |
| Total Annual Fund Operating Expenses | 0.73% |
| Less Fee Reductions and/or Expense Reimbursements | (0.38)% |
| Total Annual Fund Operating Expenses After Fee Reductions and/or Expense Reimbursements ¹ | 0.35% |

¹ LSV Asset Management (the "Adviser") has contractually agreed to reduce fees and reimburse expenses to the extent necessary to keep net operating expenses (excluding interest, taxes, brokerage commissions, acquired fund fees and expenses, and extraordinary expenses) from exceeding 0.35% of the Fund's average daily net assets until February 28, 2011. This agreement may be terminated: (i) by the Board, for any reason at any time, or (ii) by the Adviser, upon ninety (90) days' prior written notice to the Trust, effective as of the close of business on the last day of the then-current one-year period.

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that, except for the first year, the Fund’s operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

| <u>1 Year</u> | <u>3 Years</u> | <u>5 Years</u> | <u>10 Years</u> |
|---------------|----------------|----------------|-----------------|
| \$36 | \$195 | \$368 | \$871 |

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in total annual fund operating expenses or in the example, affect the Fund’s performance. During its most recent fiscal year, the Fund’s portfolio turnover rate was 44% of the average value of its portfolio.

PRINCIPAL INVESTMENT STRATEGIES

The LSV Conservative Core Equity Fund invests primarily in equity securities. In selecting securities for the Fund, LSV Asset Management (“LSV” or the “Adviser”) focuses on medium to large U.S. companies (i.e., those with market capitalizations of \$1 billion or more at the time of purchase) whose securities, in the Adviser’s opinion, are out-of-favor (undervalued) in the marketplace. The Adviser believes that these out-of-favor securities will produce superior future returns if their future growth exceeds the market’s low expectations. The Fund expects to remain as fully invested in the above securities as practicable, but in any case, under normal circumstances, at least 80% of its net assets will be invested in equity securities. This investment policy can be changed by the Fund upon 60 days’ prior notice to shareholders.

The Adviser’s investment strategy uses a quantitative investment model to make investment decisions for the Fund. The investment model ranks securities based on fundamental measures of value (such as the price-to-earnings ratio) and recent indicators of recovery (such as recent price appreciation). The investment model selects stocks to buy from the higher-ranked stocks and selects stocks to sell from those whose rankings have decreased. The Adviser manages the Fund conservatively relative to its benchmark, the S&P 500 Index. The Fund is expected to experience a low level of portfolio turnover.

PRINCIPAL RISKS

As with all mutual funds, a shareholder is subject to the risk that his or her investment could lose money. **A Fund share is not a bank deposit and it is not insured or guaranteed by the FDIC or any government agency.** The principal risk factors affecting shareholders’ investments in the Fund are set forth below.

Since it purchases equity securities, the Fund is subject to the risk that stock prices will fall over short or extended periods of time. Historically, the equity markets have moved in cycles, and the value of the Fund’s equity securities may fluctuate drastically from day-to-day. Individual companies may report poor results or be negatively affected by industry and/or economic trends and developments. The prices of securities issued by such companies may suffer a decline in response. These factors contribute to price volatility, which is the principal risk of investing in the Fund. Although the Fund is managed conservatively relative to its index, the Fund will be subject to the same degree of volatility as its index, which has been high at times over historical periods.

The medium-capitalization companies in which the Fund may invest in may be more vulnerable to adverse business or economic events than larger, more established companies. In particular, these medium-sized companies may have limited product lines, markets and financial resources, and may depend upon a relatively small management group. Therefore, medium-capitalization stocks may be more volatile than those of larger companies. These securities may be traded over the counter or listed on an exchange.

The Fund is also subject to the risk that medium- to large-capitalization equity value securities may underperform other segments of the equity market or the equity market as a whole.

The Fund pursues a “value style” of investing. Value investing focuses on companies whose stock appears undervalued in light of factors such as the company’s earnings, book value, revenues or cash flow. If the Adviser’s assessment of a company’s value or prospects for exceeding earnings expectations or market conditions is wrong, the Fund could suffer losses or produce poor performance relative to other funds. In addition, “value stocks” can continue to be undervalued by the market for long periods of time.

PERFORMANCE INFORMATION

The bar chart and the performance table below illustrate the risks and volatility of an investment in the Fund by showing changes in the Fund’s performance from year to year and by showing how the Fund’s average annual returns for 1 year and since inception compare with those of a broad measure of market performance. Of course, the Fund’s past performance (before and after taxes) does not necessarily indicate how the Fund will perform in the future. Updated performance information is available by calling the Fund at 1-888-FUND-LSV.

(12/31/08)

AVERAGE ANNUAL TOTAL RETURNS FOR PERIODS ENDED DECEMBER 31, 2009

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Your actual after-tax returns will depend on your tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts.

Returns after taxes on distributions and sale of Fund shares may be higher than before-tax returns when a net capital loss occurs upon the redemption of Fund shares.

| | 1 Year | Since Inception (5/22/2007) |
|--|---------------|--|
| Fund Returns Before Taxes | 25.41% | (10.83)% |
| Fund Returns After Taxes on Distributions | 24.57% | (11.29)% |
| Fund Returns After Taxes on Distributions and Sale of Fund Shares | 16.52% | (9.22)% |
| S&P 500 Index Return (reflects no deduction for fees, expenses, or taxes) | 26.46% | (9.50)% |

INVESTMENT ADVISER

LSV Asset Management serves as investment adviser to the Fund.

PORTFOLIO MANAGERS

The Fund is managed by a team of investment professionals, each of whom is jointly and primarily responsible for the day-to-day management of the Fund.

Josef Lakonishok, CEO, CIO, and Partner, has been with the Adviser since its founding in 1994.

Menno Vermeulen, CFA, Partner and Senior Quantitative Analyst, joined the Adviser in 1998.

Puneet Mansharamani, CFA, Partner, joined the Adviser in 2000.

PURCHASE AND SALE OF FUND SHARES

To purchase shares of the Fund for the first time, including an initial purchase through an individual retirement account ("IRA"), you must invest at least \$100,000. The Fund may accept investments of smaller amounts in its sole discretion. There is no minimum for subsequent investments.

If you own your shares directly, you may sell your shares on any day that the New York Stock Exchange is open for business by contacting the Fund directly by mail or telephone at 1-888-FUND-LSV.

If you own your shares through an account with a broker or other institution, contact that broker or institution to sell your shares. Your broker or institution may charge a fee for its services in addition to the fees charged by the Fund.

TAX INFORMATION

The Fund intends to make distributions that may be taxed as ordinary income or capital gains.

PAYMENTS TO BROKER-DEALERS AND OTHER FINANCIAL INTERMEDIARIES

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's web site for more information.
