S&P 500 Index	10.14%	10.36%	11.01%	12.19%	11.18%	12.49%	9.30%	6.91%

<sup>†</sup> Periods longer than one year are annualized

\* Year ended October 31, 2023.

*Institutional Class Shares performance as of 9/30/23: 18.30% (1 year), 5.45% (5 year), 8.40% (10 year) and 7.87% (Since Inception). The performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares when redeemed, may be worth more or less than their original cost and current performance may be lower or higher than the performance quoted. For performance data current to the most recent month end, please call 888-FUND-LSV (888-386-3578). Periods longer than one year are annualized; inception date is 3/31/99.*

The broad U.S. equity market as measured by the S&P 500 Index was up 10.14% for the twelve months ended October 31, 2023. Returns were driven by a small group of mega-cap technology stocks that dominated for most of the period. Over the first half of 2023, the technology heavy Nasdaq Composite Index was up over 30%, its best start to the year since 1983. While the market rewarded the mega-cap growth stocks in the period, smaller stocks and value-oriented stocks lagged behind. Small cap stocks underperformed large caps over the period as the Russell 1000 was up 9.48% while the Russell 2000 was down 8.57% (both in USD). From a style perspective, value stocks (as measured by the Russell Indices) underperformed growth—the Russell 1000 Value Index was up 0.13% while the Russell 1000 Growth Index was up 18.95% (both in USD). The LSV Large Cap Value Equity Fund, Institutional Class Shares, was down 0.43% for the period. From a sector perspective, Communications Services, Information Technology and Consumer Discretionary stocks outperformed while the Real Estate, Utilities and Health Care sectors lagged.

The Fund's deeper value bias detracted over the period as value stocks lagged meaningfully amidst the narrow market rally. Performance attribution further indicates that stock selection detracted from portfolio relative returns for the period, while sector selection added value. Stock selection relative losses were primarily the result of the underperformance of deep value names within the Financials, Communications Services and Consumer Staples sectors—holdings within the Regional Banks, Integrated Telecommunication Services and Packaged Foods & Meats industries performed particularly poorly. Within Communication Services, not owning expensive names in the Interactive Media & Services industry also detracted. From a sector perspective, relative gains were largely the result of our underweight positions in the Utilities and Real Estate sectors as well as our overweight to Technology stocks. Top contributors included our overweight positions in PulteGroup, FedEx, Dell Technologies, Jabil, Reliance Steel, Triton, Vistra Corp, Emcor Group and Molson Coors. Our underweights to Bank of America and Johnson & Johnson as well as not owning Disney and Chevron also added value. The main individual detractors included our underweight position in Meta as well as not owning Berkshire Hathaway, General Electric, J.P. Morgan, WalMart and Procter & Gamble. Overweight positions in Bristol-Myers Squibb, Regions Financial, Harley-Davidson, Lincoln National, Pfizer, Ingevity, Citizens Financial and GM also detracted.

## MANAGER'S DISCUSSION AND ANALYSIS OF FUND PERFORMANCE (Unaudited)

The Fund continues to trade at a significant discount to the overall market as well as to the value benchmark. The Fund is trading at 9.0x forward earnings compared to 14.3x for the Russell 1000 Value, 1.6x book value compared to 2.2x for the Russell 1000 Value and 6.3x cash flow compared to 10.3x for the Russell 1000 Value. Sector weightings are a result of our bottom-up stock selection process, subject to constraints at the sector and industry levels. The Fund is currently overweight the Consumer Discretionary, Health Care and Information Technology sectors while underweight Consumer Staples, Real Estate and Utilities.

Our organization remains stable and our research team continues to pursue an active research agenda in which we are looking for better ways to measure value and identify signs of positive change. As always, we are focused on delivering the long-term results that our investors have come to expect from LSV and that we have delivered for clients since 1994.

*Forward earnings is not a forecast of the Fund's future performance. Investing involves risk, including possible loss of principal. Investments in smaller companies typically exhibit higher volatility.*

*The Russell 1000 Value Index is a widely-recognized, capitalization-weighted (companies with larger market capitalizations have more influence than those with smaller market capitalization) index of U.S. companies with lower forecasted growth rates and price-to-book ratios.*

*The Russell 1000 Growth Index is a widely-recognized, capitalization-weighted (companies with larger market capitalizations have more influence than those with smaller market capitalization) index of U.S. companies with higher forecasted growth rates and price-to-book ratios.*

*The S&P 500 Index consists of 500 stocks chosen for market size, liquidity, and industry group representation. It is a market-value weighted index (stock price times number of shares outstanding), with each stock's weight in the Index proportionate to its market value. The S&P 500 Index is one of the most widely used benchmarks of U.S. equity performance.*

*The Russell 2000 Index is an unmanaged index comprised of 2,000 stocks of U.S. companies with small market capitalization.*

\* The graph is based on only the Institutional Class Shares; performance for Investor Class Shares would be different due to differences in fee structures.

(1) The LSV Value Equity Fund Commenced operations on March 31, 1999.

(2) Investor Class Shares commenced operations on June 10, 2014. Investor Class Shares' performance for periods prior to June 10, 2014, is that of the Institutional Class Shares. Institutional Class Shares' performance was adjusted to reflect the 12b-1 fees applicable to the Investor Class Shares.

The performance data quoted herein represents past performance and the return and value of an investment in the Fund will fluctuate so that, when redeemed, may be worth less than its original cost. Past performance does not guarantee future results. The Fund's performance assumes the reinvestment of all dividends and all capital gain distributions. Index returns assume reinvestment of dividends and, unlike a fund's returns, do not reflect any fees or expenses. If such fees and expenses were included in the Index returns, the performance would have been lower. Please note that one cannot invest directly in an unmanaged index.

Returns shown do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.

## Notes to Financial Statements

October 31, 2023

### 1. Organization:

The Advisors' Inner Circle Fund (the "Trust") is organized as a Massachusetts business trust under an Amended and Restated Agreement and Declaration of Trust dated February 18, 1997. The Trust is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company with 28 funds. The financial statements herein are those of the LSV Value Equity Fund, a diversified Fund (the "Fund"). The Fund seeks long-term growth of capital by investing in undervalued stocks which are out of favor in the market. The financial statements of the remaining funds of the Trust are not presented herein, but are presented separately. The assets of each fund are segregated, and a shareholder's interest is limited to the fund in which shares are held.

### 2. Significant Accounting Policies:

The following are significant accounting policies, which are consistently followed in the preparation of the financial statements of the Fund. The Fund is an investment company that applies the accounting and reporting guidance issued in Topic 946 by the U.S. Financial Accounting Standards Board ("FASB").

*Use of Estimates* — The preparation of financial statements in conformity with U.S. generally accepted accounting principles ("U.S. GAAP") requires management to make estimates and assumptions that affect the fair value of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates and such differences could be material.

*Security Valuation* — Securities listed on a securities exchange, market or automated quotation system for which quotations are readily available (except for securities traded on NASDAQ), including securities traded over the counter, are valued at the last quoted sale price on an exchange or market (foreign or domestic) on which they are traded on the valuation date (or at approximately 4:00 pm ET if a security's primary exchange is normally open at that time), or, if there is no such reported sale on the valuation date, at the most recent quoted bid price. For securities traded on NASDAQ, the NASDAQ Official Closing Price will be used. The prices for foreign securities are reported in local currency and converted to U.S. dollars using currency exchange rates.

Securities for which market prices are not "readily available" are valued in accordance with fair value

procedures (the "Fair Value Procedures") established by the Adviser and approved by the Trust's Board of Trustees (the "Board"). Pursuant to Rule 2a-5 under the 1940 Act, the Board has designated the Adviser as the "valuation designee" to determine the fair value of securities and other instruments for which no readily available market quotations are available. The Fair Value Procedures are implemented through a Fair Value Committee (the "Committee") of the Adviser.

Some of the more common reasons that may necessitate that a security be valued using Fair Value Procedures include: the security's trading has been halted or suspended; the security has been de-listed from a national exchange; the security's primary trading market is temporarily closed at a time when under normal conditions it would be open; the security has not been traded for an extended period of time; the security's primary pricing source is not able or willing to provide a price; or trading of the security is subject to local government-imposed restrictions. When a security is valued in accordance with the Fair Value Procedures, the Committee will determine the value after taking into consideration relevant information reasonably available to the Committee. As of October 31, 2023, there were no securities valued in accordance with the Fair Value Procedures.

In accordance with the authoritative guidance on fair value measurements and disclosure under U.S. GAAP, the Fund discloses fair value of its investments in a hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The objective of a fair value measurement is to determine the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Accordingly, the fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 — Unadjusted quoted prices in active markets for identical, unrestricted assets or liabilities that the Fund has the ability to access at the measurement date;

Level 2 — Other significant observable inputs (includes quoted prices for similar securities, interest rates, prepayment speeds, credit risk, referenced indices, quoted prices in inactive markets, adjusted quoted prices in active markets, adjusted quoted prices on foreign equity securities that were adjusted in accordance with The Adviser's pricing procedures, etc.); and

Level 3 — Prices, inputs or proprietary modeling

## Notes to Financial Statements

October 31, 2023

techniques which are both significant to the fair value measurement and unobservable (supported by little or no market activity).

Investments are classified within the level of the lowest significant input considered in determining fair value. Investments classified within Level 3 whose fair value measurement considers several inputs may include Level 1 or Level 2 inputs as components of the overall fair value measurement.

*Federal Income Taxes* — It is the Fund's intention to continue to qualify as a regulated investment company for Federal income tax purposes by complying with the appropriate provisions of Subchapter M of the Internal Revenue Code of 1986, as amended and to distribute substantially all of its income to shareholders. Accordingly, no provision for Federal income taxes has been made in the financial statements.

The Fund evaluates tax positions taken or expected to be taken in the course of preparing the Fund's tax returns to determine whether it is "more-likely-than-not" (i.e., greater than 50-percent) that each tax position will be sustained upon examination by a taxing authority based on the technical merits of the position. Tax positions not deemed to meet the more-likely-than-not threshold are recorded as a tax benefit or expense in the current year. The Fund did not record any tax provision in the current period. However, management's conclusions regarding tax positions taken may be subject to review and adjustment at a later date based on factors including, but not limited to, examination by tax authorities on open tax years (i.e. the last three open tax year ends, as applicable), on-going analysis of and changes to tax laws, regulations and interpretations thereof.

As of and during the year ended October 31, 2023, the Fund did not have a liability for any unrecognized tax benefits. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of Operations. During the year ended October 31, 2023, the Fund did not incur any interest or penalties.

*Security Transactions and Investment Income* — Security transactions are accounted for on trade date for financial reporting purposes. Costs used in determining realized gains or losses on the sale of investment securities are based on the specific identification method. Dividend income is recorded on the ex-dividend date. Interest income is recognized on the accrual basis from settlement date.

*Investments in Real Estate Investment Trusts (REITs)* — With respect to the Fund, dividend income is recorded based on the income included in distributions received from the REIT investments using published REIT reclassifications including some management estimates when actual amounts are not available. Distributions received in excess of this estimated amount are recorded as a reduction of the cost of investments or reclassified to capital gains. The actual amounts of income, return of capital, and capital gains are only determined by each REIT after its fiscal year-end, and may differ from the estimated amounts.

*Repurchase Agreements* — In connection with transactions involving repurchase agreements, a third party custodian bank takes possession of the underlying securities ("collateral"), the value of which exceeds the principal amount of the repurchase transaction, including accrued interest. Such collateral will be cash, debt securities issued or guaranteed by the U.S. Government, securities that at the time the repurchase agreement is entered into are rated in the highest category by a nationally recognized statistical rating organization ("NRSRO") or unrated category by an NRSRO, as determined by the Adviser. Provisions of the repurchase agreements and procedures adopted by the Board require that the market value of the collateral, including accrued interest thereon, is sufficient in the event of default by the counterparty. In the event of default on the obligation to repurchase, the Fund has the right to liquidate the collateral and apply the proceeds in satisfaction of the obligation. In the event of default or bankruptcy by the counterparty to the agreement, realization and/or retention of the collateral or proceeds may be subject to legal proceedings.

Repurchase agreements are entered into by the Fund under Master Repurchase Agreements ("MRA") which permit the Fund, under certain circumstances including an event of default (such as bankruptcy or insolvency), to offset payables and/or receivables under the MRA with collateral held and/or posted to the counterparty and create one single net payment due to or from the Fund.

At October 31, 2023, the open repurchase agreements by counterparty which are subject to a MRA on a net payment basis are as follows (000):

## Notes to Financial Statements

October 31, 2023

Counterparty	Repurchase Agreement	Fair Value of Non-Cash Collateral Received <sup>(1)</sup>	Cash Collateral Received <sup>(1)</sup>	Net Amount <sup>(2)</sup>
South Street Securities	\$ 8,106	\$ 8,106	\$ —	\$ —

(1) The amount of collateral reflected in the table does not include any over-collateralization received by the Fund.

(2) Net amount represents the net amount receivable due from the counterparty in the event of default.

**Expenses**— Expenses that are directly related to the Fund are charged to the Fund. Other operating expenses of the Trust are prorated to the Fund based on the number of funds and/or average daily net assets

**Classes**— Class specific expenses are borne by that class of shares. Income, realized and unrealized gains and losses and non-class specific expenses are allocated to the respective class on the basis of average daily net assets.

**Dividends and Distributions to Shareholders**— Dividends from net investment income, if any, are declared and paid to shareholders annually. Any net realized capital gains are distributed to shareholders at least annually.

### 3. Transactions with Affiliates:

Certain officers of the Trust are also employees of SEI Investments Global Funds Services (the “Administrator”), a wholly owned subsidiary of SEI Investments Company, and/or SEI Investments Distribution Co. (the “Distributor”). Such officers are paid no fees by the Trust for serving as officers of the Trust other than the Chief Compliance Officer (“CCO”) as described below.

A portion of the services provided by the CCO and his staff, whom are employees of the Administrator, are paid for by the Trust as incurred. The services include regulatory oversight of the Trust’s Advisors and service providers as required by SEC regulations. The CCO’s services have been approved by and reviewed by the Board.

### 4. Administration, Distribution, Transfer Agency and Custodian Agreements:

The Fund, along with other series of the Trust advised by LSV Asset Management (the “Adviser”), and the Administrator are parties to an Administration Agreement, under which the Administrator provides administrative services to the Fund. For these services, the Administrator is paid an asset based fee, subject to certain minimums, which will vary depending on the number of share classes and the average daily net

assets of the Fund. For the year ended October 31, 2023, the Fund incurred \$843,685 for these services.

The Trust and Distributor are parties to a Distribution Agreement dated November 14, 1991, as Amended and Restated November 14, 2005. The Distributor receives no fees for its distribution services under this agreement.

The Fund has adopted a distribution plan under the Rule 12b-1 under the 1940 Act for Investor Class Shares that allows the Fund to pay distribution and service fees for the sale and distribution of its shares, and for services provided to shareholders. The maximum annual distribution fee for Investor Class Shares of the Fund is 0.25% annually of the average daily net assets. For the year ended October 31, 2023, the Fund incurred \$715,443 of distribution fees.

SS&C Global Investor & Distribution Solutions, Inc. (formerly, DST Asset Manager Solutions, Inc.) serves as transfer agent and dividend disbursing agent for the Fund under the transfer agency agreement with the Trust. During the year ended October 31, 2023, the Fund earned \$20,778 in cash management credits which were used to offset transfer agent expenses. This amount is labeled as “Fees Paid Indirectly” on the Statement of Operations.

U.S. Bank, N.A. acts as custodian (the “Custodian”) for the Fund. The Custodian plays no role in determining the investment policies of the Fund or which securities are to be purchased and sold by the Fund.

### 5. Investment Advisory Agreement:

The Trust and the Adviser are parties to an Investment Advisory Agreement, under which the Adviser receives an annual fee equal to 0.55% of the Fund’s average daily net assets.

### 6. Investment Transactions:

The cost of security purchases and the proceeds from security sales, other than short-term investments, for the year ended October 31, 2023, were as follows (000):

Purchases	\$ 146,990
Sales	\$ 531,300

### 7. Federal Tax Information:

The amount and character of income and capital gain distributions to be paid, if any, are determined in accordance with Federal income tax regulations, which may differ from U.S. GAAP. As a result, net investment income (loss) and net realized gain (loss) on investment transactions for a reporting period may differ significantly from distributions during such period. These book/tax differences may be temporary or permanent.

## Notes to Financial Statements

October 31, 2023

The permanent differences primarily consist of reclassification of long term capital gain distribution on REITs, reclass of Distributions and investments in publicly traded partnerships. There are no permanent differences that are credited or charged to Paid-in Capital and Distributable Earnings (Accumulated Losses) as of October 31, 2023.

The tax character of dividends and distributions paid during the year ended October 31, 2023 and 2022 was as follows (000):

	<u>Ordinary Income</u>	<u>Long-Term Capital Gain</u>	<u>Total</u>
2023	\$ 41,356	\$ 165,071	\$ 206,427
2022	64,838	166,432	231,270

As of October 31, 2023, the components of distributable earnings (accumulated losses) on a tax basis were as follows (000):

Undistributed Ordinary Income	\$ 24,602
Undistributed Long-Term Capital Gain	65,727
Other Temporary Differences	(5)
Unrealized Appreciation	9,909
Total Distributable Earnings	<u>\$ 100,233</u>

The fund has no capital loss carryforwards at October 31, 2023.

During the year ended October 31, 2023, no capital loss carryforwards were utilized to offset capital gains.

The total cost of securities for Federal income tax purposes and the aggregate gross unrealized appreciation and depreciation on investments held by the Fund at October 31, 2023, were as follows (000):

<u>Federal Tax Cost</u>	<u>Aggregated Gross Unrealized Appreciation</u>	<u>Aggregated Gross Unrealized Depreciation</u>	<u>Net Unrealized Appreciation</u>
\$ 1,248,398	\$ 214,015	\$ (204,106)	\$ 9,909

For Federal income tax purposes, the difference between Federal tax cost and book cost primarily relates to wash sales.

### 8. Concentration of Risks:

Equity Risk — Since the Fund purchases equity securities, the Fund is subject to the risk that stock prices will fall over short or extended periods of time. Historically, the equity markets have moved in cycles, and the value of the Fund's equity securities may fluctuate drastically from day-to-day. Individual companies may report poor results or be negatively affected by industry and/or economic trends and developments. The prices of securities issued by such companies may suffer a decline in response. These

factors contribute to price volatility, which is the principal risk of investing in the Fund.

Market Risk — The risk that the market value of an investment may move up and down, sometimes rapidly and unpredictably. Markets for securities in which the Fund invests may decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments that may cause broad changes in market value, public perceptions concerning these developments, and adverse investor sentiment or publicity. Similarly, the impact of any epidemic, pandemic or natural disaster, or widespread fear that such events may occur, could negatively affect the global economy, as well as the economies of individual countries, the financial performance of individual companies and sectors, and the markets in general in significant and unforeseen ways. Any such impact could adversely affect the prices and liquidity of the securities and other instruments in which the Fund invests, which in turn could negatively impact the Fund's performance and cause losses on your investment in the Fund.

Medium and Smaller Capitalization Risk — The medium- and smaller-capitalization companies in which the Fund may invest may be more vulnerable to adverse business or economic events than larger, more established companies. In particular, investments in these medium- and small-sized companies may pose additional risks, including liquidity risk, because these companies tend to have limited product lines, markets and financial resources, and may depend upon a relatively small management group. Therefore, medium- and small-capitalization stocks may be more volatile than those of larger companies. These securities may be traded over-the-counter or listed on an exchange.

Style Risk — Since the Fund pursues a "value style" of investing, if the Adviser's assessment of market conditions, or a company's value or prospects for exceeding earnings expectations is wrong, the Fund could suffer losses or produce poor performance relative to other funds. In addition, "value stocks" can continue to be undervalued by the market for long periods of time.

Sector Focus Risk — Because the Fund may, from time to time, be more heavily invested in particular sectors, the value of its shares may be especially sensitive to factors and economic risks that specifically affect those sectors. As a result, the Fund's share price may fluctuate more widely

### 9. Concentration of Shareholders:

At October 31, 2023, 43% of total shares outstanding for the Institutional Class Shares were held by two record shareholders owning 10% or greater of the aggregate total shares outstanding. At October 31, 2023, 96% of

## **Notes to Financial Statements**

October 31, 2023

total shares outstanding for the Investor Class Shares were held by one record shareholder owning 10% or greater of the aggregate total shares outstanding. These were comprised mostly of omnibus accounts which were held on behalf of various individual shareholders.

### **10. Indemnifications:**

In the normal course of business, the Fund enters into contracts that provide general indemnifications. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated; however, based on experience, the risk of loss from such claims is considered remote.

### **11. Subsequent Events:**

The Fund has evaluated the need for additional disclosures and/or adjustments resulting from subsequent events through the date the financial statements were issued. Based on this evaluation, no additional disclosures or adjustments were required to the financial statements.

## Report of Independent Registered Public Accounting Firm

To the Board of Trustees of The Advisors' Inner Circle Fund and the Shareholders of LSV Value Equity Fund

### Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of LSV Value Equity Fund (the "Fund") (one of the funds constituting The Advisors' Inner Circle Fund (the "Trust")), including the schedule of investments, as of October 31, 2023, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund (one of the funds constituting The Advisors' Inner Circle Fund) at October 31, 2023, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and its financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

### Basis for Opinion

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of October 31, 2023, by correspondence with the custodian and brokers; when replies were not received from brokers, we performed other auditing procedures. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

*Ernst & Young LLP*

We have served as the auditor of one or more LSV Asset Management investment companies since 2005.

## Disclosure of Fund Expenses (Unaudited)

All mutual funds have operating expenses. As a shareholder of a mutual fund, your investment is affected by these ongoing costs, which include (among others) costs for portfolio management, administrative services, and shareholder reports like this one. It is important for you to understand the impact of these costs on your investment returns.

Operating expenses such as these are deducted from the mutual fund's gross income and directly reduce your final investment return. These expenses are expressed as a percentage of the mutual fund's average net assets; this percentage is known as the mutual fund's expense ratio.

The following examples use the expense ratio and are intended to help you understand the ongoing costs (in dollars) of investing in your Fund and to compare these costs with those of other mutual funds. The examples are based on an investment of \$1,000 made at the beginning of the period and held for the entire period from May 1, 2023 to October 31, 2023.

The table below illustrates your Fund's costs in two ways:

- **Actual fund return.** This section helps you to estimate the actual expenses that your Fund incurred over the period. The "Expenses Paid During Period" column shows the actual dollar expense incurred by a \$1,000 investment in the Fund, and the "Ending Account Value" number is derived from deducting that expense from the Fund's gross investment return.

You can use this information, together with the actual amount you invested in the Fund, to estimate the expenses you paid over that period. Simply divide your account value by \$1,000 to arrive at a ratio (for example, an \$8,600 account value divided by \$1,000 = \$8.6), then multiply that ratio by the number shown for your Fund under "Expenses Paid During Period."

- **Hypothetical 5% return.** This section helps you compare your Fund's costs with those of other mutual funds. It assumes that the Fund had an annual 5% return before expenses during the period, but that the expense ratio (Column 3) is unchanged. This example is useful in making comparisons because the Securities and Exchange Commission requires all mutual funds to make this 5% calculation. You can assess your Fund's comparative cost by comparing the hypothetical result for your Fund in the "Expense Paid During Period" column with those that appear in the same charts in the shareholder reports for other mutual funds.

**NOTE:** Because the hypothetical return is set at 5% for comparison purposes — NOT your Fund's actual return — the account values shown do not apply to your specific investment.

	Beginning Account Value 05/01/23	Ending Account Value 10/31/23	Annualized Expense Ratios	Expenses Paid During Period*
<i>LSV Value Equity Fund</i>				
<b>Actual Fund Return</b>				
Institutional Class Shares	\$1,000.00	\$970.60	0.69%	\$3.43
Investor Class Shares	1,000.00	969.60	0.94	4.67
<b>Hypothetical 5% Return</b>				
Institutional Class Shares	\$1,000.00	\$1,021.73	0.69%	\$3.52
Investor Class Shares	1,000.00	1,020.47	0.94	4.79

\* Expenses are equal to the Fund's annualized expense ratio multiplied by the average account value over the period, multiplied by 184/365 (to reflect the one-half year period).

## **Review of Liquidity Risk Management Program (Unaudited)**

Pursuant to Rule 22e-4 under the 1940 Act, the Funds' investment adviser has adopted, and the Board has approved, a liquidity risk management program (the "Program") to govern the Funds' approach to managing liquidity risk. The Program is overseen by the Funds' Liquidity Risk Management Program Administrator (the "Program Administrator"), and the Program's principal objectives include assessing, managing and periodically reviewing each Fund's liquidity risk, based on factors specific to the circumstances of the Funds.

At a meeting of the Board held on May 23, 2023, the Trustees received a report from the Program Administrator addressing the operations of the Program and assessing its adequacy and effectiveness of implementation for the period from January 1, 2022 through December 31, 2022. Among other things, the Program Administrator's report noted that:

- The Program Administrator had determined that the Program is reasonably designed to assess and manage each Fund's liquidity risk and has operated adequately and effectively to manage each Fund's liquidity risk during the period covered by the report.
- During the period covered by the report, there were no liquidity events that impacted the Funds or their ability to timely meet redemptions without dilution to existing shareholders.
- No material changes have been made to the Program during the period covered by the report.

**NOTICE TO SHAREHOLDERS  
OF  
LSV VALUE EQUITY FUND  
(Unaudited)**

For shareholders that do not have an October 31, 2023 tax year end, this notice is for informational purposes only. For shareholders with an October 31, 2023 tax year end, please consult your tax advisor as to the pertinence of this notice. For the fiscal year ended October 31, 2023, the Fund is designating the following items with regard to distributions paid during the year.

<b>Long-Term Capital Gain Distribution</b>	<b>Ordinary Income Distribu- tions</b>	<b>Total Distribu- tions</b>	<b>Qualifying For Corporate Dividends Receivable Deduction <sup>(1)</sup></b>	<b>Qualifying Dividend Income <sup>(2)</sup></b>	<b>U.S. Government Interest <sup>(3)</sup></b>	<b>Interest Related Dividends<sup>(4)</sup></b>	<b>Short-Term Capital Gain Dividends <sup>(5)</sup></b>	<b>Qualifying Business Income <sup>(6)</sup></b>
79.97%	20.03%	100.00%	97.18%	97.41%	0.00%	0.00%	100.00%	3.85%

- (1) Qualifying dividends represent dividends which qualify for the corporate dividends received deduction and is reflected as a percentage of ordinary income distributions (the total of short-term capital gain and net investment income distributions).
- (2) The percentage in this column represents the amount of "Qualifying Dividend Income" as created by the Jobs and Growth Tax Relief Reconciliation Act of 2003 and is reflected as a percentage of ordinary income distributions (the total of short-term capital gain and net investment income distributions). It is the intention of the aforementioned Fund to designate the maximum amount permitted by the law.
- (3) "U.S. Government Interest" represents the amount of interest that was derived from direct U.S. Government obligations and distributed during the fiscal year. This amount is reflected as a percentage of ordinary income distributions. Generally, interest from direct U.S. Government obligations is exempt from state income tax. However, for shareholders of the Advisors' Inner Circle Fund- LSV Value Equity Fund who are residents of California, Connecticut and New York, the statutory threshold requirements were not satisfied to permit exemption of these amounts from state income.
- (4) The percentage in this column represents the amount of "Interest Related Dividend" is reflected as a percentage of ordinary income distribution. Interest related dividends are exempted from U.S. withholding tax when paid to foreign investors.
- (5) The percentage in this column represents the amount of "Short-Term Capital Gain Dividends" is reflected as a percentage of short-term capital gain distribution that is exempted from U.S. withholding tax when paid to foreign investors.
- (6) The percentage of this column represents that amount of ordinary dividend income that qualified for 20% Business Income Deduction.

The information reported herein may differ from the information and distributions taxable to the shareholders for the calendar year ending December 31, 2023. Complete information will be computed and reported in conjunction with your 2023 Form 1099-DIV.
