

**THE ADVISORS' INNER CIRCLE FUND**

*LSV*

Global Value Fund

**ANNUAL REPORT TO SHAREHOLDERS**

**October 31, 2023**

This information must be preceded or accompanied by a current prospectus. Investors should read the prospectus carefully before investing.

## MANAGER'S DISCUSSION AND ANALYSIS OF FUND PERFORMANCE (Unaudited)

The average annual<sup>†</sup> total net of fees return of the LSV Global Value Fund, the benchmark MSCI AC World Index and the MSCI AC World Value Index for the trailing periods ending October 31, 2023 were as follows:

	<b>One Year</b>	<b>Three Years</b>	<b>Five Years</b>	<b>Seven Years</b>	<b>Since Inception</b>
<b>LSV Global Value Fund, Institutional Class Shares*</b>	9.57%	12.16%	5.85%	6.52%	4.69%
<b>Benchmark:</b>					
MSCI AC World Index	10.50%	6.68%	7.47%	8.39%	6.30%
<b>Broad Market:</b>					
MSCI AC World Value Index	4.09%	9.33%	4.42%	5.55%	3.74%

<sup>†</sup> Periods longer than one year are annualized.

\* Year ended October 31, 2023.

*Institutional Class Shares performance as of 9/30/23: 25.34% (1 year), 5.07% (5 year) and 5.23% (Since Inception). The performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares when redeemed, may be worth more or less than their original cost and current performance may be lower or higher than the performance quoted. For performance data current to the most recent month end, please call 888-FUND-LSV (888-386-3578). Periods longer than 1-year are annualized; inception date 6/25/2014.*

The global equity market as measured by the MSCI AC World Index was up 10.50% for the twelve months ended October 31, 2023. Returns were driven by a small group of mega-cap technology stocks that dominated for most of the period. Over the first half of 2023, the technology heavy U.S. Nasdaq Composite Index was up over 30%, its best start to the year since 1983. While the market rewarded the mega-cap growth stocks in the period, smaller stocks and value-oriented stocks lagged behind. From a style perspective, value stocks (as measured by the MSCI Indices) underperformed growth—the MSCI AC World Value Index was up 4.09% while the MSCI AC World Growth Index was up 17.07% (both in USD). The LSV Global Value Equity Fund, Institutional Class Shares, was up 9.57% for the period. From a sector perspective, Communication Services, Consumer Discretionary and Information Technology stocks outperformed while the Real Estate, Health Care and Utilities sectors lagged.

The Fund's deeper value bias detracted over the period as value stocks lagged meaningfully amidst the narrow market rally. Performance attribution further indicates that both stock and sector selection detracted from portfolio relative returns for the period. Stock selection relative losses were primarily the result of the underperformance of deep value names within the Consumer Discretionary, Information Technology and Health Care sectors—holdings within the Broadline Retail, Semiconductors and Pharmaceuticals industries performed particularly poorly. Within Information Technology, not owning expensive names in the Systems and Application Software industries also detracted. From a sector perspective, relative losses were largely the result of our underweight positions in the Information Technology and Communication Services sectors as well as our overweight to Financials stocks. Top contributors included our overweight positions in Dell Technologies, PetroChina, Jabil, Wistron, Builders FirstSource, Marathon Petroleum, Tokyo Seimitsu, Novatek Microelectronics, UBS and ASE Technology. Not owning Tesla and Bank of America also added value. The main individual detractors included not owning NVIDIA, Microsoft, Amazon, Alphabet, Broadcom and Eli Lilly. Overweight positions in Pfizer, Bristol-Myers Squibb, General Motors, Mosaic, Archer-Daniels-Midland and Lincoln National also detracted.

The Fund continues to trade at a significant discount to the overall market as well as to the value benchmark. The Fund is trading at 9.0x forward earnings compared to 16.2x for the MSCI AC World Index, 1.3x book value compared to 2.6x for the benchmark and 5.7x cash flow compared to 12.5x for the MSCI AC World Index. Sector weightings are a result of our bottom-up stock selection process, subject to constraints at the sector and industry levels. The Fund is currently overweight the Industrials, Financials and Energy sectors while underweight Information Technology, Real Estate and Consumer Staples.

## MANAGER'S DISCUSSION AND ANALYSIS OF FUND PERFORMANCE (Unaudited)

Our organization remains stable and our research team continues to pursue an active research agenda in which we are looking for better ways to measure value and identify signs of positive change. As always, we are focused on delivering the long-term results that our investors have come to expect from LSV and that we have delivered for clients since 1994.

*This material represents the manager's assessment of the portfolio and market environment at a specific point in time and should not be relied upon by the reader as research or investment advice. Investing involves risk including loss of principal. The information provided herein represents the opinion of the manager and is not intended to be a forecast of future events, a guarantee of future results or investment advice.*

*Forward earnings is not a forecast of the Fund's future performance. Investing involves risk, including possible loss of principal. Investments in smaller companies typically exhibit higher volatility.*

*The MSCI AC World Index is a market capitalization weighted index designed to provide a broad measure of equity-market performance throughout the world.*

*The MSCI AC World Growth Index captures large and mid-cap securities exhibiting overall growth style characteristics across 23 developed Markets countries.*

*The MSCI AC World Value Index captures large and mid-cap securities exhibiting overall value style characteristics across 23 developed Markets countries.*

*Index Returns are for illustrative purposes only and do not represent actual fund performance. Index performance returns do not reflect any manage fees, transaction costs or expenses. Indexes are unmanaged and one cannot invest directly in an index. Past performance does not guarantee future results.*

**Comparison of Change in the Value of \$100,000 Investment in the LSV  
Global Value Fund, Institutional Class Shares, versus the MSCI All Country World Index (Unaudited)**

	Average Annual Total Return for the period ended October 31, 2023				
	One Year Return	Three Year Return	Five Year Return	Seven Year Return	Annualized Inception to Date <sup>(1)</sup>
LSV Global Value Fund, Institutional Class Shares	9.57%	12.16%	5.85%	6.52%	4.69%
LSV Global Value Fund, Investor Class Shares	9.38%	11.87%	5.58%	6.26%	4.43%
MSCI AC World Index	10.50%	6.68%	7.47%	8.39%	6.30%

\* The graph is based on only the Institutional Class Shares; performance for Investor Class Shares would be different due to differences in fee structures.

(1) The LSV Global Value Fund Commenced operations on June 25, 2014.

The performance data quoted herein represents past performance and the return and value of an investment in the Fund will fluctuate so that, when redeemed, may be worth less than its original cost. Past performance does not guarantee future results. The Fund's performance assumes the reinvestment of all dividends and all capital gain distributions. Index returns assume reinvestment of dividends and, unlike a fund's returns, do not reflect any fees or expenses. If such fees and expenses were included in the Index returns, the performance would have been lower. Please note that one cannot invest directly in an unmanaged index. Fee waivers were in effect. If they had not been in effect, performance would have been lower.

Returns shown do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.

See definition of comparative indices on page 2.

(1) A reconciliation of Level 3 investments and disclosures of significant unobservable inputs are presented when the Fund has a significant amount of Level 3 investments at the beginning and/or end of the period in relation to Net Assets. Management has concluded that Level 3 investments are not material in relation to Net Assets.

‡ For the year ended October 31, 2023, there were no significant changes into/out of Level 3. The transfer into Level 3 investments for the Fund were immaterial, although the unrealized appreciation/(depreciation) on these investments was \$(259)(\$ Thousands). These securities were impacted by the invasion of Ukraine and sanctions on market conditions in Russia. From the start of the conflict in Ukraine until October 31, 2023, Russian-held investments were deemed to be worthless due to sanctions and inaccessibility of the market.

<sup>^</sup> Includes Securities in which the fair value is \$0 or has been rounded to \$0.

Amounts designated as “–” are \$0 or have been rounded to \$0.

## Notes to Financial Statements

October 31, 2023

### 1. Organization:

The Advisors' Inner Circle Fund (the "Trust") is organized as a Massachusetts business trust under an Amended and Restated Agreement and Declaration of Trust dated February 18, 1997. The Trust is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company with 28 funds. The financial statements herein are those of the LSV Global Value Fund, a diversified Fund (the "Fund"). The Fund seeks long-term growth of capital by investing primarily in equity securities of companies located throughout the world. The Fund commenced operations on June 25, 2014, offering Institutional Class Shares and Investor Class Shares. The financial statements of the remaining funds of the Trust are not presented herein, but are presented separately. The assets of each fund are segregated, and a shareholder's interest is limited to the fund in which shares are held.

### 2. Significant Accounting Policies:

The following are significant accounting policies, which are consistently followed in the preparation of the financial statements of the Fund. The Fund is an investment company that applies the accounting and reporting guidance issued in Topic 946 by the U.S. Financial Accounting Standards Board ("FASB").

*Use of Estimates* — The preparation of financial statements, in conformity with U.S. generally accepted accounting principles ("U.S. GAAP") requires management to make estimates and assumptions that affect the fair value of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates and such differences could be material.

*Security Valuation* — Securities listed on a securities exchange, market or automated quotation system for which quotations are readily available (except for securities traded on NASDAQ), including securities traded over the counter, are valued at the last quoted sale price on an exchange or market (foreign or domestic) on which they are traded on the valuation date (or at approximately 4:00 pm ET if a security's primary exchange is normally open at that time), or, if there is no such reported sale on the valuation date, at the most recent quoted bid price. For securities traded on NASDAQ, the NASDAQ Official Closing Price will be used. The prices for foreign securities are reported in local currency and converted to U.S. dollars using currency exchange rates.

Securities for which market prices are not "readily available" are valued in accordance with fair value procedures (the "Fair Value Procedures") established by the Adviser and approved by the Trust's Board of Trustees (the "Board"). Pursuant to Rule 2a-5 under the 1940 Act, the Board has designated the Adviser as the "valuation designee" to determine the fair value of securities and other instruments for which no readily available market quotations are available. The Fair Value Procedures are implemented through a Fair Value Committee (the "Committee") of the Adviser.

Some of the more common reasons that may necessitate that a security be valued using Fair Value Procedures include: the security's trading has been halted or suspended; the security has been de-listed from a national exchange; the security's primary trading market is temporarily closed at a time when under normal conditions it would be open; the security has not been traded for an extended period of time; the security's primary pricing source is not able or willing to provide a price; or trading of the security is subject to local government-imposed restrictions. When a security is valued in accordance with the Fair Value Procedures, the Committee will determine the value after taking into consideration relevant information reasonably available to the Committee. As of October 31, 2023, the total market value of securities that were fair valued by the Committee were \$0 (000) or 0.0% of Net Assets.

For securities that principally trade on a foreign market or exchange, a significant gap in time can exist between the time of a particular security's last trade and the time at which the Fund calculates its net asset value. The closing prices of such securities may no longer reflect their market value at the time the Fund calculates net asset value if an event that could materially affect the value of those securities a ("Significant Event") has occurred between the time of the security's last close and the time that the Fund calculates net asset value. A Significant Event may relate to a single issuer or to an entire market sector. If the adviser of the Fund becomes aware of a Significant Event that has occurred with respect to a security or group of securities after the closing of the exchange or market on which the security or securities principally trade, but before the time at which the Fund calculates net asset value, it may request that a Committee meeting be called. In addition, the Fund's administrator monitors price movements among certain selected indices, securities and/or baskets of securities that may be an indicator that the closing prices received earlier from foreign exchanges or markets may not reflect market value at the time the Fund calculates net asset value. If price movements in a monitored index or security exceed levels established by the administrator, the administrator notifies the adviser

## Notes to Financial Statements

October 31, 2023

that such limits have been exceeded. In such event, the adviser makes the determination whether a Committee meeting should be called based on the information provided.

The Fund uses Intercontinental Exchange Data Pricing & Reference Data, LLC (“ICE”) as a third party fair valuation vendor when the fair value trigger is met. ICE provides a fair value for foreign securities in the Fund based on certain factors and methodologies (involving, generally, tracking valuation correlations between the U.S. market and each non-U.S. security) applied by ICE in the event that there is a movement in the U.S. market that exceeds a specific threshold established by the Committee. The Committee establishes a “confidence interval” which is used to determine the level of correlation between the value of a foreign security and movements in the U.S. market before a particular security is fair valued when the threshold is exceeded. In the event that the threshold established by the Committee is exceeded on a specific day, the Fund values its non-U.S. securities that exceed the applicable “confidence interval” based upon the fair values provided by ICE. In such event, it is not necessary to hold a Committee meeting. In the event that the Adviser believes that the fair values provided by ICE are not reliable, the Adviser contacts SEI Investments Global Fund Services (the “Administrator”) and may request that a meeting of the Committee be held. As of October 31, 2023, the total market value of securities were valued based on the fair value prices provided by ICE were \$23,836 (000) or 36.3% of Net Assets.

In accordance with the authoritative guidance on fair value measurements and disclosure under U.S. GAAP, the Fund discloses fair value of its investments in a hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The objective of a fair value measurement is to determine the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Accordingly, the fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

*Level 1* — Unadjusted quoted prices in active markets for identical, unrestricted assets or liabilities that the Fund has the ability to access at the measurement date;

*Level 2* — Other significant observable inputs (includes quoted prices for similar securities, interest rates, prepayment speeds, credit risk, referenced indices, quoted prices in inactive

markets, adjusted quoted prices in active markets, adjusted quoted prices on foreign equity securities that were adjusted in accordance with The Adviser’s pricing procedures, etc.); and

*Level 3* — Prices, inputs or proprietary modeling techniques which are both significant to the fair value measurement and unobservable (supported by little or no market activity).

Investments are classified within the level of the lowest significant input considered in determining fair value. Investments classified within Level 3 whose fair value measurement considers several inputs may include Level 1 or Level 2 inputs as components of the overall fair value measurement.

*Federal Income Taxes* — It is the Fund’s intention to continue to qualify as a regulated investment company for Federal income tax purposes by complying with the appropriate provisions of Subchapter M of the Internal Revenue Code of 1986, as amended and to distribute substantially all of its income to shareholders. Accordingly, no provision for Federal income taxes has been made in the financial statements.

The Fund evaluates tax positions taken or expected to be taken in the course of preparing the Fund’s tax returns to determine whether it is “more-likely-than-not” (i.e., greater than 50-percent) that each tax position will be sustained upon examination by a taxing authority based on the technical merits of the position. Tax positions not deemed to meet the more-likely-than-not threshold are recorded as a tax benefit or expense in the current year. The Fund did not record any tax provision in the current period. However, management’s conclusions regarding tax positions taken may be subject to review and adjustment at a later date based on factors including, but not limited to, examination by tax authorities (i.e. the last three open tax year ends, as applicable), on-going analysis of and changes to tax laws, regulations and interpretations thereof.

As of and during the year ended October 31, 2023, the Fund did not have a liability for any unrecognized tax benefits. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of Operations. During the year ended October 31, 2023, the Fund did not incur any interest or penalties.

*Security Transactions and Investment Income*— Security transactions are accounted for on trade date for financial reporting purposes. Costs used in determining realized gains or losses on the sale of investment securities are based on the specific identification method. Dividend income is

## Notes to Financial Statements

October 31, 2023

recorded on the ex-dividend date. Interest income is recognized on the accrual basis from settlement date. Certain dividends from foreign securities will be recorded as soon as the Fund is informed of the dividend if such information is obtained subsequent to the ex-dividend date.

*Investments in Real Estate Investment Trusts (REITs)*— With respect to the Fund, dividend income is recorded based on the income included in distributions received from the REIT investments using published REIT reclassifications including some management estimates when actual amounts are not available. Distributions received in excess of this estimated amount are recorded as a reduction of the cost of investments or reclassified to capital gains. The actual amounts of income, return of capital, and capital gains are only determined by each REIT after its fiscal year-end, and may differ from the estimated amounts.

*Repurchase Agreements*— In connection with transactions involving repurchase agreements, a third party custodian bank takes possession of the underlying securities (“collateral”), the value of which exceeds the principal amount of the repurchase transaction, including accrued interest. Such collateral will be cash, debt securities issued or guaranteed by the U.S. Government, securities that at the time the repurchase agreement is entered into are rated in the highest category by a nationally recognized statistical rating organization (“NRSRO”) or unrated category by an NRSRO, as determined by the Adviser. Provisions of the repurchase agreements and procedures adopted by the Board require that the market value of the collateral, including accrued interest thereon, is sufficient in the event of default by the counterparty. In the event of default on the obligation to repurchase, the Fund has the right to liquidate the collateral and apply the proceeds in satisfaction of the obligation. In the event of default or bankruptcy by the counterparty to the agreement, realization and/or retention of the collateral or proceeds may be subject to legal proceedings.

Repurchase agreements are entered into by the Fund under Master Repurchase Agreements (“MRA”) which permit the Fund, under certain circumstances including an event of default (such as bankruptcy or insolvency), to offset payables and/or receivables under the MRA with collateral held and/or posted to the counterparty and create one single net payment due to or from the Fund.

At October 31, 2023, the open repurchase agreement by counterparty which is subject to a MRA on

a net payment basis is as follows (000):

Counterparty	Repurchase Agreement	Fair Value of Non-Cash Collateral Received*	Cash Collateral Received	Net Amount
Counterparty One	\$ 102	\$ 102	\$ 0	\$ 0

(1) The amount of collateral reflected in the table does not include any over-collateralization received by the Fund.

(2) Net amount represents the net amount receivable due from the counterparty in the event of default.

*Foreign Currency Translation*— The books and records of the Fund are maintained in U.S. dollars. Investment securities and other assets and liabilities denominated in a foreign currency are translated into U.S. dollars on the date of valuation. The Fund does not isolate that portion of realized or unrealized gains and losses resulting from changes in the foreign exchange rate from fluctuations arising from changes in the market prices of the securities. These gains and losses are included in net realized and unrealized gains and losses on investments on the Statement of Operations. Net realized and unrealized gains and losses on foreign currency transactions represent net foreign exchange gains or losses from foreign currency exchange contracts, disposition of foreign currencies, currency gains or losses realized between trade and settlement dates on securities transactions and the difference between the amount of the investment income and foreign withholding taxes recorded on the Fund’s books and the U.S. dollar equivalent amounts actually received or paid.

*Expenses*— Expenses that are directly related to the Fund are charged to the Fund. Other operating expenses of the Trust are prorated to the Fund based on the number of funds and/or average daily net assets.

*Classes*— Class specific expenses are borne by that class of shares. Income, realized and unrealized gains and losses and non-class specific expenses are allocated to the respective class on the basis of average daily net assets.

*Dividends and Distributions to Shareholders*— Dividends from net investment income, if any, are declared and paid to shareholders annually. Any net realized capital gains are distributed to shareholders at least annually.

## Notes to Financial Statements

October 31, 2023

### 3. Transactions with Affiliates:

Certain officers of the Trust are also employees of SEI Investments Global Funds Services the (“Administrator”), a wholly owned subsidiary of SEI Investments Company and/or SEI Investments Distribution Co. the (“Distributor”). Such officers are paid no fees by the Trust for serving as officers of the Trust other than the Chief Compliance Officer (“CCO”) as described below.

A portion of the services provided by the CCO and his staff, whom are employees of the Administrator, are paid for by the Trust as incurred. The services include regulatory oversight of the Trust’s Advisors and service providers as required by SEC regulations. The CCO’s services have been approved by and reviewed by the Board.

### 4. Administration, Distribution, Shareholder Servicing, Transfer Agent and Custodian Agreements:

The Fund, along with other series of the Trust advised by LSV Asset Management (the “Adviser”), and the Administrator are parties to an Administration Agreement, under which the Administrator provides administrative services to the Fund. For these services, the Administrator is paid an asset based fee, subject to certain minimums, which will vary depending on the number of share classes and the average daily net assets of the Fund. For the year ended October 31, 2023, the Fund incurred \$39,910 for these services.

The Trust and Distributor are parties to a Distribution Agreement dated November 14, 1991, as Amended and Restated November 14, 2005. The Distributor receives no fees for its distribution services under this agreement.

The Fund has adopted a distribution plan under the Rule 12b-1 under the 1940 Act for Investor Class Shares that allows the Fund to pay distribution and service fees for the sale and distribution of its shares, and for services provided to shareholders. The maximum annual distribution fee for Investor Class Shares of the Fund is 0.25% annually of the average daily net assets. For the year ended October 31, 2023, the Fund incurred \$9,243 of distribution fees.

SS&C Global Investor & Distribution Solutions, Inc. (formerly, DST Asset Manager Solutions, Inc.) serves as transfer agent and dividend disbursing agent for the Fund under the transfer agency agreement with the Trust. During the year ended October 31, 2023, the Fund earned \$1,778 in cash management credits which were used to offset transfer agent expenses.

U.S. Bank, N.A. acts as custodian (the “Custodian”) for the Fund. The Custodian plays no role in determining the investment policies of the Fund or which securities are to be purchased and sold by the Fund.

### 5. Investment Advisory Agreement:

The Trust and the Adviser are parties to an Investment Advisory Agreement, under which the Adviser receives an annual fee equal to 0.75% of the Fund’s average daily net assets. The Adviser has contractually agreed to waive its fee (excluding interest, taxes, brokerage commissions, acquired fund fees and expenses, and extraordinary expenses) in order to limit the Fund’s total operating expenses after fee waivers and/or expense reimbursements to a maximum of 0.90% and 1.15% of the Fund’s Institutional Class and Investor Class Shares’ average daily net assets, respectively, through February 28, 2024. Refer to waiver of investment advisory fees on the Statement of Operations for fees waived for the year ended October 31, 2023.

### 6. Investment Transactions:

The cost of security purchases and the proceeds from security sales, other than short-term investments, for the year ended October 31, 2023, were as follows (000):

Purchases . . . . .	\$	18,009
Sales . . . . .	\$	11,969

### 7. Federal Tax Information:

The amount and character of income and capital gain distributions to be paid, if any, are determined in accordance with Federal income tax regulations, which may differ from U.S. GAAP. As a result, net investment income (loss) and net realized gain (loss) on investment transactions for a reporting period may differ significantly from distributions during such period. These book/tax differences may be temporary or permanent.

The permanent differences primarily consist of foreign currency translations and reclassification of long term capital gain distribution on REITs. There are no permanent differences that are credited or charged to Paid-in Capital and Distributable Earnings (Accumulated Losses) as of October 31, 2023.

The tax character of dividends and distributions paid during the years ended October 31, 2023 and 2022 was as follows (000):

	Ordinary Income	Long-Term Capital Gain	Total
2023	\$ 1,747	\$ 451	\$ 2,198
2022	534	515	1,049

As of October 31, 2023, the components of distributable earnings (accumulated losses) on a tax basis were as follows (000):

## Notes to Financial Statements

October 31, 2023

Undistributed Ordinary Income	\$	1,899
Undistributed Long-Term Capital Gain		58
Unrealized Depreciation		(3,026)
Total Accumulated Losses	\$	<u>(1,069)</u>

Capital loss carryforward rules allow a Registered Investment Company (“RIC”) to carry forward capital losses indefinitely and to retain the character of capital loss carryforwards as short-term or long-term. The Fund has no short-term or long-term capital loss carryforwards, at October 31, 2023. During the year end October 31, 2023, \$0 (000) of capital loss carryforwards were utilized to offset capital gains.

The total cost of securities for Federal income tax purposes and the aggregate gross unrealized appreciation and depreciation on investments held by the Fund at October 31, 2023, were as follows (000):

<u>Federal Tax Cost</u>	<u>Aggregated Gross Unrealized Appreciation</u>	<u>Aggregated Gross Unrealized Depreciation</u>	<u>Net Unrealized Depreciation</u>
\$ 68,206	\$ 5,909	\$ (8,935)	\$ (3,026)

For Federal income tax purposes, the difference between Federal tax cost and book cost primarily relates to wash sales and investments in passive foreign investment companies (PFICs).

### 8. Concentration of Risks:

*Equity Risk* — Since the Fund purchases equity securities, the Fund is subject to the risk that stock prices will fall over short or extended periods of time. Historically, the equity markets have moved in cycles, and the value of the Fund’s equity securities may fluctuate drastically from day-to-day. Individual companies may report poor results or be negatively affected by industry and/or economic trends and developments. The prices of securities issued by such companies may suffer a decline in response. These factors contribute to price volatility, which is the principal risk of investing in the Fund.

*Foreign Company Risk* — Investing in foreign companies, including direct investments and through Depository Receipts, poses additional risks since political and economic events unique to a country or region will affect those markets and their issuers. These risks will not necessarily affect the U.S. economy or similar issuers located in the United States. In addition, investments in foreign companies are generally denominated in a foreign currency, the value of which may be influenced by currency exchange rates and exchange control regulations. Changes in the value of a currency compared to the U.S. dollar may

affect (positively or negatively) the value of the Fund’s investments. These currency movements may occur separately from, and in response to, events that do not otherwise affect the value of the security in the issuer’s home country. Securities of foreign companies may not be registered with the U.S. Securities and Exchange Commission (the “SEC”) and foreign companies are generally not subject to the regulatory controls imposed on U.S. issuers and, as a consequence, there is generally less publicly available information about foreign securities than is available about domestic securities. Income from foreign securities owned by the Fund may be reduced by a withholding tax at the source, which tax would reduce income received from the securities comprising the portfolio. Foreign securities may also be more difficult to value than securities of U.S. issuers. While Depository Receipts provide an alternative to directly purchasing the underlying foreign securities in their respective national markets and currencies, investments in Depository Receipts continue to be subject to many of the risks associated with investing directly in foreign securities.

*Emerging Market Risk* — Investments in emerging markets securities are considered speculative and subject to heightened risks in addition to the general risks of investing in foreign securities. Unlike more established markets, emerging markets may have governments that are less stable, markets that are less liquid and economies that are less developed. In addition, the securities markets of emerging market countries may consist of companies with smaller market capitalizations and may suffer periods of relative illiquidity; significant price volatility; restrictions on foreign investment; and possible restrictions on repatriation of investment income and capital. Furthermore, foreign investors may be required to register the proceeds of sales, and future economic or political crises could lead to price controls, forced mergers, expropriation or confiscatory taxation, seizure, nationalization or creation of government monopolies.

*Risk of Investing in Russia* — Russia’s military invasion of Ukraine in February 2022, the resulting responses by the United States and other countries, and the potential for wider conflict have had, and could continue to have, severe adverse effects on regional and global economies and could further increase volatility and uncertainty in the financial markets. The United States and other countries have imposed broad-ranging economic sanctions on Russia and certain Russian

## Notes to Financial Statements

October 31, 2023

individuals, banking entities and corporations as a response to its invasion of Ukraine.

The United States and other countries have also imposed economic sanctions on Belarus and may impose sanctions on other countries that provide military or economic support to Russia. These sanctions, as well as any other economic consequences related to the invasion, such as additional sanctions, boycotts or changes in consumer or purchaser preferences or cyberattacks on governments, companies or individuals, may further decrease the value and liquidity of certain Russian securities and securities of issuers in other countries that are subject to economic sanctions related to the invasion. To the extent that a Fund has exposure to Russian investments or investments in countries affected by the invasion, the Fund's ability to price, buy, sell, receive or deliver such investments may be impaired. In addition, any exposure that a Fund may have to counterparties in Russia or in countries affected by the invasion could negatively impact the Fund's investments. The extent and duration of military actions and the repercussions of such actions (including any retaliatory actions or countermeasures that may be taken by those subject to sanctions) are impossible to predict. These events have resulted in, and could continue to result in, significant market disruptions, including in certain industries or sectors such as the oil and natural gas markets, and may further strain global supply chains and negatively affect inflation and global growth. These and any related events could significantly impact a Fund's performance and the value of an investment in a Fund beyond any direct exposure a Fund may have to Russian issuers or issuers in other countries affected by the invasion.

**Currency Risk** — As a result of the Fund's investments in securities or other investments denominated in, and/or receiving revenues in, foreign currencies, the Fund will be subject to currency risk. Currency risk is the risk that foreign currencies will decline in value relative to the U.S. dollar, in which case, the dollar value of an investment in the Fund would be adversely affected.

**Market Risk** — The risk that the market value of an investment may move up and down, sometimes rapidly and unpredictably. Markets for securities in which the Fund invests may decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments that may cause broad changes in market value, public perceptions concerning these developments, and adverse investor sentiment or publicity. Similarly, the impact of any epidemic, pandemic or natural disaster, or widespread fear that such events may

occur, could negatively affect the global economy, as well as the economies of individual countries, the financial performance of individual companies and sectors, and the markets in general in significant and unforeseen ways. Any such impact could adversely affect the prices and liquidity of the securities and other instruments in which the Fund invests, which in turn could negatively impact the Fund's performance and cause losses on your investment in the Fund.

**Medium and Smaller Capitalization Risk** — The medium- and smaller-capitalization companies in which the Fund may invest may be more vulnerable to adverse business or economic events than larger, more established companies. In particular, investments in these medium- and small-sized companies may pose additional risks, including liquidity risk, because these companies tend to have limited product lines, markets and financial resources, and may depend upon a relatively small management group. Therefore, medium- and small-capitalization stocks may be more volatile than those of larger companies. These securities may be traded over-the-counter or listed on an exchange.

**Style Risk** — Since the Fund pursues a "value style" of investing, if the Adviser's assessment of market conditions, or a company's value or prospects for exceeding earnings expectations is wrong, the Fund could suffer losses or produce poor performance relative to other funds. In addition, "value stocks" can continue to be undervalued by the market for long periods of time.

### 9. Concentration of Shareholders:

At October 31, 2023, 90% of total shares outstanding for the Institutional Class Shares were held by three record shareholders each owning 10% or greater of the aggregate total shares outstanding. At October 31, 2023, 78% of total shares outstanding for the Investor Class Shares were held by three record shareholders owning 10% or greater of the aggregate total shares outstanding. These were comprised mostly of omnibus accounts which were held on behalf of various individual shareholders.

### 10. Indemnifications:

In the normal course of business, the Fund enters into contracts that provide general indemnifications. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated; however, based on experience, the risk of loss from such claims is considered remote.

**Notes to Financial Statements**

October 31, 2023

**11. Subsequent Events:**

The Fund has evaluated the need for additional disclosures and/or adjustments resulting from subsequent events through the date the financial statements were issued. Based on this evaluation, no additional disclosures or adjustments were required to the financial statements.

## Report of Independent Registered Public Accounting Firm

To the Board of Trustees of The Advisors' Inner Circle Fund and the Shareholders of LSV Global Value Fund

### Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of LSV Global Value Fund (the "Fund") (one of the funds constituting The Advisors' Inner Circle Fund (the "Trust")), including the schedule of investments, as of October 31, 2023, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund (one of the funds constituting The Advisors' Inner Circle Fund) at October 31, 2023, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and its financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

### Basis for Opinion

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of October 31, 2023, by correspondence with the custodian and brokers; when replies were not received from brokers, we performed other auditing procedures. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

*Ernst & Young LLP*

We have served as the auditor of one or more LSV Asset Management investment companies since 2005.

Philadelphia, Pennsylvania  
December 29, 2023

## Disclosure of Fund Expenses (Unaudited)

All mutual funds have operating expenses. As a shareholder of a mutual fund, your investment is affected by these ongoing costs, which include (among others) costs for portfolio management, administrative services, and shareholder reports like this one. It is important for you to understand the impact of these costs on your investment returns.

Operating expenses such as these are deducted from the mutual fund's gross income and directly reduce your final investment return. These expenses are expressed as a percentage of the mutual fund's average net assets; this percentage is known as the mutual fund's expense ratio.

The following examples use the expense ratio and are intended to help you understand the ongoing costs (in dollars) of investing in your Fund and to compare these costs with those of other mutual funds. The examples are based on an investment of \$1,000 made at the beginning of the period and held for the entire period from May 1, 2023 to October 31, 2023.

The table below illustrates your Fund's costs in two ways:

- **Actual fund return.** This section helps you to estimate the actual expenses after fee waivers that your Fund incurred over the period. The "Expenses Paid During Period" column shows the actual dollar expense incurred by a \$1,000 investment in the Fund, and the "Ending Account Value" number is derived from deducting that expense from the Fund's gross investment return.

You can use this information, together with the actual amount you invested in the Fund, to estimate the expenses you paid over that period. Simply divide your account value by \$1,000 to arrive at a ratio (for example, an \$8,600 account value divided by \$1,000 = \$8.6), then multiply that ratio by the number shown for your Fund under "Expenses Paid During Period."

- **Hypothetical 5% return.** This section helps you compare your Fund's costs with those of other mutual funds. It assumes that the Fund had an annual 5% return before expenses during the period, but that the expense ratio (Column 3) is unchanged. This example is useful in making comparisons because the Securities and Exchange Commission requires all mutual funds to make this 5% calculation. You can assess your Fund's comparative cost by comparing the hypothetical result for your Fund in the "Expense Paid During Period" column with those that appear in the same charts in the shareholder reports for other mutual funds.

**NOTE:** Because the hypothetical return is set at 5% for comparison purposes — NOT your Fund's actual return — the account values shown do not apply to your specific investment.

	Beginning Account Value 05/01/23	Ending Account Value 10/31/23	Annualized Expense Ratios	Expenses Paid During Period*
<i>LSV Global Value Fund</i>				
<b>Actual Fund Return</b>				
Institutional Class Shares	\$1,000.00	\$991.10	0.90%	\$4.52
Investor Class Shares	1,000.00	989.60	1.15	5.77
<b>Hypothetical 5% Return</b>				
Institutional Class Shares	\$1,000.00	\$1,020.67	0.90%	\$4.58
Investor Class Shares	1,000.00	1,019.41	1.15	5.85

\* Expenses are equal to the Fund's annualized expense ratio multiplied by the average account value over the period, multiplied by 184/365 (to reflect the one-half year period).

## **Review of Liquidity Risk Management Program (Unaudited)**

Pursuant to Rule 22e-4 under the 1940 Act, the Funds' investment adviser has adopted, and the Board has approved, a liquidity risk management program (the "Program") to govern the Funds' approach to managing liquidity risk. The Program is overseen by the Funds' Liquidity Risk Management Program Administrator (the "Program Administrator"), and the Program's principal objectives include assessing, managing and periodically reviewing each Fund's liquidity risk, based on factors specific to the circumstances of the Funds.

At a meeting of the Board held on May 23, 2023, the Trustees received a report from the Program Administrator addressing the operations of the Program and assessing its adequacy and effectiveness of implementation for the period from January 1, 2022 through December 31, 2022. Among other things, the Program Administrator's report noted that:

- The Program Administrator had determined that the Program is reasonably designed to assess and manage each Fund's liquidity risk and has operated adequately and effectively to manage each Fund's liquidity risk during the period covered by the report.
- During the period covered by the report, there were no liquidity events that impacted the Funds or their ability to timely meet redemptions without dilution to existing shareholders.
- No material changes have been made to the Program during the period covered by the report.

There can be no assurance that the Program will achieve its objectives in the future. Please refer to the prospectus for more information regarding the Fund's exposure to liquidity risk and other principal risks to which an investment in the Funds may be subject.

## Trustees And Officers Of The Advisors' Inner Circle Fund (Unaudited)

Set forth below are the names, ages, position with the Trust, term of office, length of time served and the principal occupations for the last five years of each of the persons currently serving as Trustees and Officers of the Trust. Unless otherwise noted, the business address of each Trustee is SEI Investments Company, 1 Freedom Valley Drive, Oaks, Pennsylvania 19456. Trustees who are deemed not to be "interested persons" of the Trust are referred to as "Independent Board Members." Messrs. Nesher and Klauder are Trustees who may be deemed to be "interested" persons of the Fund as that term is defined in the 1940 Act by virtue of their affiliation with the Trust's Distributor. The Trust's Statement of Additional Information ("SAI") includes additional information about the Trustees and Officers. The SAI may be obtained without charge by calling 888-Fund-LSV. The following chart lists Trustees and Officers as of October 31, 2023.

Name and Year of Birth	Position with Trust and Length of Time Served <sup>1</sup>	Principal Occupation in the Past Five Years	Other Directorships Held in the Past Five Years <sup>2</sup>
<b>INTERESTED TRUSTEES<sup>3,4</sup></b>			
Robert Nesher (Born: 1946)	Chairman of the Board of Trustees (since 1991)	SEI employee 1974 to present; currently performs various services on behalf of SEI Investments for which Mr. Nesher is compensated. **NOTICE TO SHAREHOLDERS  
OF  
LSV GLOBAL VALUE FUND  
(Unaudited)**

For shareholders that do not have an October 31, 2023 tax year end, this notice is for informational purposes only. For shareholders with an October 31, 2023 tax year end, please consult your tax advisor as to the pertinence of this notice. For the fiscal year ended October 31, 2023, the Fund is designating the following items with regard to distributions paid during the year.

<b>Long-Term Capital Gain Distribution</b>	<b>Ordinary Income Distribu- tions</b>	<b>Total Distribu- tions</b>	<b>Qualifying For Corporate Dividends Receivable Deduction <sup>(1)</sup></b>	<b>Qualifying Dividend Income <sup>(2)</sup></b>	<b>U.S. Government Interest <sup>(3)</sup></b>	<b>Interest Related Dividends<sup>(4)</sup></b>	<b>Short-Term Capital Gain Dividends <sup>(5)</sup></b>	<b>Qualifying Dividend Income <sup>(6)</sup></b>
20.53%	79.47%	100.00%	54.68%	96.83%	0.00%	0.00%	100.00%	0.00%

(1) Qualifying dividends represent dividends which qualify for the corporate dividends received deduction and is reflected as a percentage of ordinary income distributions (the total of short-term capital gain and net investment income distributions).

(2) The percentage in this column represents the amount of "Qualifying Dividend Income" as created by the Jobs and Growth Tax Relief Reconciliation Act of 2003 and is reflected as a percentage of ordinary income distributions (the total of short-term capital gain and net investment income distributions). It is the intention of the aforementioned Fund to designate the maximum amount permitted by the law.

(3) "U.S. Government Interest" represents the amount of interest that was derived from direct U.S. Government obligations and distributed during the fiscal year. This amount is reflected as a percentage of ordinary income distributions. Generally, interest from direct U.S. Government obligations is exempt from state income tax. However, for shareholders of the Advisors' Inner Circle Fund- LSV Global Value Fund who are residents of California, Connecticut and New York, the statutory threshold requirements were not satisfied to permit exemption of these amounts from state income.

(4) The percentage in this column represents the amount of "Interest Related Dividend" is reflected as a percentage of ordinary income distribution. Interest related dividends is exempted from U.S. withholding tax when paid to foreign investors.

(5) The percentage in this column represents the amount of "Short-Term Capital Gain Dividends" is reflected as a percentage of short-term capital gain distribution that is exempted from U.S. withholding tax when paid to foreign investors.

(6) The percentage of this column represents that amount of ordinary dividend income that qualified for 20% Business Income Deduction.

The information reported herein may differ from the information and distributions taxable to the shareholders for the calendar year ending December 31, 2023. Complete information will be computed and reported in conjunction with your 2023 Form 1099-DIV.
