

Who We Are

Founded in 1994, LSV Asset Management is a majority employee-owned, quantitative value equity manager providing active management for institutional investors through the application of a proprietary investment model. As of December 31, 2020, LSV manages over \$104.3 billion in assets.

- Value equity focus is our sole business
- Limited product capacity
- Active client engagement

Investment Approach

- Quantitative
- Deep Value Orientation
- Well Diversified

The LSV Global Value Fund (the “Fund”) applies the LSV quantitative model to a universe of stocks to create and maintain a broadly diversified portfolio of primarily large and mid-cap U.S., developed market non U.S., and emerging market non U.S. listed equities. The Fund aims for deep value orientation relative to the Fund benchmark, including low price to earnings, low price to cash flow, and high dividend yield relative to the Fund benchmark.

Portfolio Management

Weighted Median Market Cap	\$20.8 billion	\$78.0 billion

*Dividend Yield is an indication of the annual dividend income projected to be generated by the portfolio of stocks held by the Fund. To calculate the expected annual dividend of a security held by the Fund, the most recent dividend payment is multiplied by the expected frequency over a year. The Dividend Yield for the Fund is the sum of the dividend yields of the underlying securities of the Fund divided by the most recent applicable NAV of the Fund expressed as a percentage. The Fund's Dividend Yield may vary from this projection and will be reduced by the Fund's expenses.

The Morningstar Rating™ for funds, or "star rating", is calculated for managed products (including mutual funds, variable annuity and variable life subaccounts, exchange-traded funds, closed-end funds, and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The Morningstar Rating does not include any adjustment for sales loads. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. The weights are: 100% three-year rating for 36-59 months of total returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods. As of December 31, 2020, LSV Global Value Fund (LSVGX, LVAGX) was rated against 760 U.S.-domiciled World Large Stock funds over a 3 year period and 631 over a five year period. With respect to these World Large Stock funds, the funds received a Morningstar Rating of 1 star for the three-year and five-year periods.

LSV Funds are distributed by SEI Investments Distribution Co., Oaks, PA 19456.
