

THE ADVISORS' INNER CIRCLE FUND

LSV

Small Cap Value Fund

ANNUAL REPORT TO SHAREHOLDERS

October 31, 2019

This information must be preceded or accompanied by a current prospectus. Investors should read the prospectus carefully before investing.

Beginning on March 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the Fund's shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports from the Fund or from your financial intermediary, such as a broker-dealer or bank. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications from the Fund electronically by contacting your financial intermediary.

You may elect to receive all future reports in paper free of charge. If you invest through a financial intermediary, you can follow the instructions included with this disclosure, if applicable, or you can contact your financial intermediary to inform it that you wish to continue receiving paper copies of your shareholder reports. If you invest directly with the Fund, you can inform the Fund that you wish to continue receiving paper copies of your shareholder reports by calling 1-888-FUND-LSV (1-888-386-3578). Your election to receive reports in paper will apply to all funds held with your financial intermediary if you invest through a financial intermediary or all LSV Funds if you invest directly with the Fund.

MANAGER'S DISCUSSION AND ANALYSIS OF FUND PERFORMANCE (Unaudited)

The total net of fee return of the LSV Small Cap Value Fund, the Russell 2000 Value Index (the benchmark) and Russell 2000 Index for trailing periods ending October 31, 2019, were as follows:

	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>Since Inception</u>
LSV Small Cap Value Fund, Institutional Class Shares*	1.20%	5.41%	4.66%	9.11%
<u>Benchmark:</u>				
Russell 2000 Value Index	3.22%	8.60%	6.24%	8.58%
<u>Broad Market:</u>				
Russell 2000 Index	4.91%	10.96%	7.37%	9.92%

*Periods longer than 1-year are annualized; inception date 2/28/13; net of fees.

Institutional Class Shares performance as of 9/30/19: -11.07% (1 year), 5.65% (5 year) and 8.86% (Since Inception). The performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares when redeemed, may be worth more or less than their original cost and current performance may be lower or higher than the performance quoted. For performance data current to the most recent month end, please call 888-FUND-LSV (888-386-3578).

Despite heightened concerns around global economic growth and lingering trade uncertainty, U.S. equities posted strong gains for the twelve months ending October 31, 2019—the S&P 500 Index was up 14.33% (in USD). Large cap stocks outperformed small caps over the period as the Russell 1000 Index was up 14.15% while the Russell 2000 Index was up just 4.91% (both in USD). From a style perspective, value stocks broadly underperformed across all market capitalization segments based on the Russell Indices—the Russell 2000 Value Index was up 3.22% while the Russell 2000 Growth Index was up 6.40% (both in USD). The LSV Small Cap Value Equity Fund was up 1.20%. From a sector perspective, Real Estate, Utilities and Technology stocks outperformed in the small cap space while Energy, Communication Services and Consumer Staples lagged.

The continued difficult environment for value stocks contributed to the bulk of the poor relative performance for the trailing twelve month period. Cheaper stocks based on cash flow and earnings measures, which we favor, lagged for the period and the Fund's emphasis on buying and holding stocks that are attractive on these measures had a significant negative impact on relative results. Attribution analysis also indicates that stock selection detracted from relative returns over the period while sector selection added value. Stock selection losses were concentrated in the Materials and Real Estate sectors as names within the Paper Products and Specialized REITs industries lagged. From a sector perspective, relative gains were largely due to our underweight positions in the Energy and Health Care sectors. Top individual contributors included overweight positions in Jabil, Oshkosh, Diodes, and Amkor Technology. Not holding Endo International and Oasis Petroleum also added value. Main individual detractors included overweights to Uniti Group, National Fuel Gas Co., Carrizo Oil & Gas, Gulfport Energy, Nautilus and Owens-Illinois as well as not holding Cree Inc and Rexford Industrial Realty.

The Fund continues to trade at a significant discount to the overall market as well as to the value benchmark. The Fund is trading at 10.4x forward earnings compared to 16.5x for the Russell 2000 Value Index, 1.3x book compared to 1.4x for the value benchmark and 6.4x cash flow compared to 9.8x for the value benchmark. Sector weightings are a result of our bottom-up stock selection process, subject to constraints at the sector and industry levels. The Fund is currently overweight the Consumer Discretionary and Industrials sectors while underweight Utilities and Health Care stocks.

Our organization remains stable and our research team continues to pursue an active research agenda in which we are looking for better ways to measure value and identify signs of positive change. As always, we are focused

MANAGER'S DISCUSSION AND ANALYSIS OF FUND PERFORMANCE (Unaudited)

on delivering the long-term results that our investors have come to expect from LSV and that we have delivered for clients since 1994.

This material represents the manager's assessment of the portfolio and market environment at a specific point in time and should not be relied upon by the reader as research or investment advice. Investing involves risk including loss of principal. The information provided herein represents the opinion of the manager and is not intended to be a forecast of future events, a guarantee of future results or investment advice.

Forward earnings is not a forecast of the Fund's future performance. Investing involves risk, including possible loss of principal. Investments in smaller companies typically exhibit higher volatility.

The Russell 1000 Index is an index of approximately 1,000 of the largest companies in the U.S. equity market.

The Russell 2000 Index is an unmanaged index comprised of 2,000 stocks of U.S. companies with small market capitalization.

The Russell 2000 Value Index is a widely-recognized, capitalization-weighted (companies with larger market capitalizations have more influence than those with smaller market capitalization) index of U.S. companies with lower forecasted growth rates and price-to-book ratios.

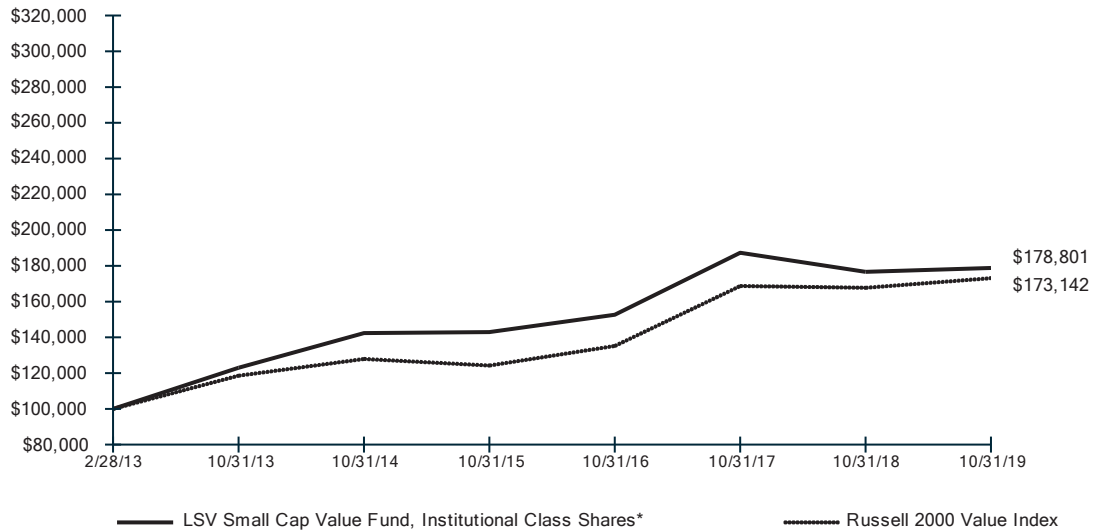

The Russell 2000 Growth Index is a widely-recognized, capitalization-weighted (companies with larger market capitalizations have more influence than those with smaller market capitalization) index of U.S. companies with higher forecasted growth rates and price-to-book ratios.

The S&P 500 Index consists of 500 stocks chosen for market size, liquidity, and industry group representation. It is a market-value weighted index (stock price times number of shares outstanding), with each stock's weight in the Index proportionate to its market value. The S&P 500 Index is one of the most widely used benchmarks of U.S. equity performance.

Index Returns are for illustrative purposes only and do not represent actual fund performance. Index performance returns do not reflect any manage fees, transaction costs or expenses. Indexes are unmanaged and one cannot invest directly in an index. Past performance does not guarantee future results.

**Comparison of Change in the Value of a \$100,000 Investment in the
LSV Small Cap Value Fund, Institutional Class Shares, versus the Russell 2000 Value Index (Unaudited)**

	Average Annual Total Return for the period ended October 31, 2019			
	One Year Return	Three Year Return	Five Year Return	Annualized Inception to Date ⁽¹⁾
LSV Small Cap Value Fund, Institutional Class Shares	1.20%	5.41%	4.66%	9.11%
LSV Small Cap Value Fund, Investor Class Shares ⁽²⁾	0.90%	5.13%	4.38%	8.83%
Russell 2000 Value Index	3.22%	8.60%	6.24%	8.58%

* The graph is based on only the Institutional Class Shares; performance for Investor Class Shares would be different due to differences in fee structures.

(1) The LSV Small Cap Value Fund commenced operations on February 28, 2013.

(2) Investor Class Shares commenced operations on June 10, 2014. Investor Class Shares' performance for periods prior to June 10, 2014, is that of the Institutional Class Shares. Institutional Class Shares' performance was adjusted to reflect the 12b-1 fees applicable to the Investor Class Shares.

The performance data quoted herein represents past performance and the return and value of an investment in the Fund will fluctuate so that, when redeemed, may be worth less than its original cost. Past performance does not guarantee future results. The Fund's performance assumes the reinvestment of all dividends and all capital gains. Index returns assume reinvestment of dividends and, unlike a fund's returns, do not reflect any fees or expenses. If such fees and expenses were included in the Index returns, the performance would have been lower. Please note that one cannot invest directly in an unmanaged index. Fee waivers were in effect previously, if they had not been in effect, performance would have been lower.

Returns shown do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.

See definition of comparative indices on page 2.

† Total return is for the period indicated and has not been annualized. Total return would have been lower had the Adviser not waived a portion of its fee. Total returns shown do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.

(1) Per share calculations were performed using average shares for the period.

The accompanying notes are an integral part of the financial statements

Notes to Financial Statements

October 31, 2019

1. Organization:

The Advisors' Inner Circle Fund (the "Trust") is organized as a Massachusetts business trust under an Amended and Restated Agreement and Declaration of Trust dated February 18, 1997. The Trust is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company with 47 funds. The financial statements herein are those of the LSV Small Cap Value Fund, a diversified Fund (the "Fund"). The Fund seeks long-term growth of capital. Under normal circumstances, the Fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of small-capitalization companies. The Fund commenced operations on February 28, 2013. The financial statements of the remaining funds of the Trust are not presented herein, but are presented separately. The assets of each fund are segregated, and a shareholder's interest is limited to the fund in which shares are held.

2. Significant Accounting Policies:

The following are significant accounting policies, which are consistently followed in the preparation of the financial statements of the Fund. The Fund is an investment company that applies the accounting and reporting guidance issued in Topic 946 by the U.S. Financial Accounting Standards Board ("FASB").

Use of Estimates — The preparation of financial statements in conformity with U.S. generally accepted accounting principles ("U.S. GAAP") requires management to make estimates and assumptions that affect the fair value of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates and such differences could be material.

Security Valuation — Securities listed on a securities exchange, market or automated quotation system for which quotations are readily available (except for securities traded on NASDAQ), including securities traded over the counter, are valued at the last quoted sale price on an exchange or market (foreign or domestic) on which they are traded on the valuation date (or at approximately 4:00 pm ET if a security's primary exchange is normally open at that time), or, if there is no such reported sale on the valuation date, at the most recent quoted bid price. For securities traded on NASDAQ, the NASDAQ Official Closing Price will be used. The prices for foreign securities

are reported in local currency and converted to U.S. dollars using currency exchange rates.

Securities for which market prices are not "readily available" are valued in accordance with Fair Value Procedures established by the Fund's Board of Trustees (the "Board"). The Fund's Fair Value Procedures are implemented through a Fair Value Committee (the "Committee") designated by the Board. Some of the more common reasons that may necessitate that a security be valued using Fair Value Procedures include: the security's trading has been halted or suspended; the security has been de-listed from a national exchange; the security's primary trading market is temporarily closed at a time when under normal conditions it would be open; the security has not been traded for an extended period of time; the security's primary pricing source is not able or willing to provide a price; or trading of the security is subject to local government-imposed restrictions. When a security is valued in accordance with the Fair Value Procedures, the Committee will determine the value after taking into consideration relevant information reasonably available to the Committee. At October 31, 2019, there were no securities valued in accordance with Fair Value Procedures.

In accordance with the authoritative guidance on fair value measurements and disclosure under U.S. GAAP, the Fund discloses fair value of its investments in a hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The objective of a fair value measurement is to determine the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Accordingly, the fair value hierarchy gives the highest priority to quoted prices unadjusted in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 — Unadjusted quoted prices in active markets for identical, unrestricted assets or liabilities that the Fund has the ability to access at the measurement date;

Level 2 — Other significant observable inputs (includes quoted prices for similar securities, interest rates, prepayment speeds, credit risk, referenced indices, quoted prices in inactive markets, adjusted quoted prices in active markets, etc.); and

Level 3 — Prices, inputs or proprietary modeling techniques which are both significant to the fair value measurement and unobservable (supported by little or no market activity).

Investments are classified within the level of the lowest significant input considered in determining fair value. Investments classified within Level 3 whose

Notes to Financial Statements

October 31, 2019

fair value measurement considers several inputs may include Level 1 or Level 2 inputs as components of the overall fair value measurement.

For the year ended October 31, 2019, there have been no significant changes to the Fund's fair valuation methodologies.

Federal Income Taxes — It is the Fund's intention to continue to qualify as a regulated investment company for Federal income tax purposes by complying with the appropriate provisions of Subchapter M of the Internal Revenue Code of 1986, as amended and to distribute substantially all of its income to shareholders. Accordingly, no provision for Federal income taxes has been made in the financial statements.

The Fund evaluates tax positions taken or expected to be taken in the course of preparing the Fund's tax returns to determine whether it is "more-likely-than-not" (i.e., greater than 50-percent) that each tax position will be sustained upon examination by a taxing authority based on the technical merits of the position. Tax positions not deemed to meet the more-likely-than-not threshold are recorded as a tax benefit or expense in the current year. The Fund did not record any tax provision in the current period. However, management's conclusions regarding tax positions taken may be subject to review and adjustment at a later date based on factors including, but not limited to, examination by tax authorities on open tax years (i.e. the last three open tax year ends, as applicable), on-going analysis of and changes to tax laws, regulations and interpretations thereof.

As of and during the year ended October 31, 2019, the Fund did not have a liability for any unrecognized tax benefits. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of Operations. During the year ended October 31, 2019, the Fund did not incur any interest or penalties.

Security Transactions and Investment Income — Security transactions are accounted for on trade date for financial reporting purposes. Costs used in determining realized gains or losses on the sale of investment securities are based on the specific identification method. Dividend income is recorded on the ex-dividend date. Interest income is recognized on the accrual basis from settlement date.

Investments in Real Estate Investment Trusts (REITs) — With respect to the Fund, dividend income is recorded based on the income included in distributions received from the REIT investments using published REIT reclassifications including

some management estimates when actual amounts are not available. Distributions received in excess of this estimated amount are recorded as a reduction of the cost of investments or reclassified to capital gains. The actual amounts of income, return of capital, and capital gains are only determined by each REIT after its fiscal year-end, and may differ from the estimated amounts.

Repurchase Agreements — In connection with transactions involving repurchase agreements, a third party custodian bank takes possession of the underlying securities ("collateral"), the value of which exceeds the principal amount of the repurchase transaction, including accrued interest. Such collateral will be cash, debt securities issued or guaranteed by the U.S. Government, securities that at the time the repurchase agreement is entered into are rated in the highest category by a nationally recognized statistical rating organization ("NRSRO") or unrated category by an NRSRO, as determined by the Adviser. Provisions of the repurchase agreements and procedures adopted by the Board require that the market value of the collateral, including accrued interest thereon, is sufficient in the event of default by the counterparty. In the event of default on the obligation to repurchase, the Fund has the right to liquidate the collateral and apply the proceeds in satisfaction of the obligation. In the event of default or bankruptcy by the counterparty to the agreement, realization and/or retention of the collateral or proceeds may be subject to legal proceedings.

Repurchase agreements are entered into by the Fund under Master Repurchase Agreements ("MRA") which permit the Fund, under certain circumstances including an event of default (such as bankruptcy or insolvency), to offset payables and/or receivables under the MRA with collateral held and/or posted to the counterparty and create one single net payment due to or from the Fund.

At October 31, 2019, the open repurchase agreements by counterparty which is subject to a MRA on a net payment basis is as follows (000):

Counterparty	Repurchase Agreement	Fair Value of Non-Cash Collateral Received ⁽¹⁾	Cash Collateral Received ⁽¹⁾	Net Amount ⁽²⁾
South Street Securities	\$ 2,751	\$ 2,751	\$ -	\$ -

(1) The amount of collateral reflected in the table does not include any over-collateralization received by the Fund.

(2) Net amount represents the net amount receivable due from the counterparty in the event of default.

Expenses— Expenses that are directly related to the Fund are charged to the Fund. Other operating

Notes to Financial Statements

October 31, 2019

expenses of the Trust are prorated to the Fund based on the number of funds and/or relative daily net assets.

Classes— Class specific expenses are borne by that class of shares. Income, realized and unrealized gains and losses and non-class specific expenses are allocated to the respective class on the basis of relative daily net assets.

Dividends and Distributions to Shareholders— Dividends from net investment income, if any, are declared and paid to shareholders annually. Any net realized capital gains are distributed to shareholders at least annually.

3. Transactions with Affiliates:

Certain officers of the Trust are also employees of SEI Investments Global Funds Services (the “Administrator”), a wholly owned subsidiary of SEI Investments Company and/or SEI Investments Distribution Co. (the “Distributor”). Such officers are paid no fees by the Trust for serving as officers of the Trust other than the Chief Compliance Officer (“CCO”) as described below.

A portion of the services provided by the CCO and his staff, whom are employees of the Administrator, are paid for by the Trust as incurred. The services include regulatory oversight of the Trust’s Advisors and service providers as required by SEC regulations. The CCO’s services have been approved by and reviewed by the Board.

4. Administration, Distribution, Shareholder Servicing, Transfer Agent and Custodian Agreements:

The Fund, along with other series of the Trust advised by LSV Asset Management (the “Adviser”), and the Administrator are parties to an Administration Agreement, under which the Administrator provides administrative services to the Fund. For these services, the Administrator is paid an asset based fee, subject to certain minimums, which will vary depending on the number of share classes and the average daily net assets of the Fund. For the year ended October 31, 2019, the Fund paid \$195,708 for these services.

The Trust and Distributor are parties to a Distribution Agreement dated November 14, 1991, as Amended and Restated November 14, 2005. The Distributor receives no fees for its distribution services under this agreement.

The Fund has adopted a distribution plan under Rule 12b-1 under the 1940 Act for Investor Class Shares that allows the Fund to pay distribution and service fees for the sale and distribution of its shares, and for services provided to shareholders. The maximum annual distribution fee for Investor Class Shares of the Fund

is 0.25% annually of the average daily net assets. For the year ended October 31, 2019, the Fund incurred \$59,146 of distribution fees.

DST Systems, Inc. serves as the transfer agent and dividend disbursing agent for the Fund under a transfer agency agreement with the Trust. During the year ended October 31, 2019 the Fund earned \$227 in cash management credits which were used to offset transfer agent expenses. This amount is labeled as “Fees Paid Indirectly” on the Statement of Operations.

U.S. Bank, N.A. acts as custodian (the “Custodian”) for the Fund. The Custodian plays no role in determining the investment policies of the Fund or which securities are to be purchased and sold by the Fund.

5. Investment Advisory Agreement:

The Trust and the Adviser are parties to an Investment Advisory Agreement, under which the Adviser receives an annual fee equal to 0.70% of the Fund’s average daily net assets. The Adviser has contractually agreed to waive its fee (excluding interest, taxes, brokerage commissions, acquired fund fees and expenses, and extraordinary expenses) in order to limit the Fund’s total operating expenses after fee waivers and/or expense reimbursements to a maximum of 0.85% and 1.10% of the Fund’s Institutional Class and Investor Class Shares’ average daily net assets, respectively, through February 28, 2020.

6. Investment Transactions:

The cost of security purchases and the proceeds from security sales, other than short-term investments, for the year ended October 31, 2019, were as follows (000):

Purchases	
Other	\$ 153,638
Sales	
Other	\$ 119,587

7. Federal Tax Information:

The amount and character of income and capital gain distributions to be paid, if any, are determined in accordance with Federal income tax regulations, which may differ from U.S. GAAP. As a result, net investment income (loss) and net realized gain (loss) on investment transactions for a reporting period may differ significantly from distributions during such period. These book/tax differences may be temporary or permanent. To the extent these differences are permanent in nature, they are charged or credited to distributable earnings or to paid-in-capital, as appropriate, in the period that the differences arise.

Notes to Financial Statements

October 31, 2019

During the year ended October 31, 2019, there were no permanent differences.

The tax character of dividends and distributions paid during the years ended October 31, 2019 and 2018 was as follows (000):

	Ordinary Income	Long-Term Capital Gain	Totals
			\$
2019	\$ 8,398	\$ 13,154	21,552
2018	8,851	7,777	16,628

As of October 31, 2019, the components of distributable loss on a tax basis were as follows (000):

Undistributed Ordinary Income	\$ 8,677
Capital Loss Carryforwards	(1,981)
Unrealized Appreciation	(13,747)
Total Distributable Loss	<u>\$ (7,051)</u>

Under the Regulated Investment Company Modernization Act of 2010, the Fund is permitted to carry forward capital losses incurred in taxable years beginning after December 22, 2010 for an unlimited period. Additionally, post-enactment capital losses that are carried forward will retain their character as either short-term or long-term capital losses rather than being considered all short-term as under previous law. The Fund has short-term capital loss carryforwards of \$1,981 (000) at October 31, 2019. During the year ended October 31, 2019, no capital loss carryforwards were utilized to offset capital gains.

The total cost of securities for Federal income tax purposes and the aggregate gross unrealized appreciation and depreciation on investments held by the Fund at October 31, 2019, were as follows (000):

Federal Tax Cost	Aggregated Gross Unrealized Appreciation	Aggregated Gross Unrealized Depreciation	Net Unrealized Depreciation
\$ 425,998	\$ 47,789	\$ (61,536)	\$ (13,747)

8. Concentration of Risks:

Equity Risk — Since the Fund purchases equity securities, the Fund is subject to the risk that stock prices will fall over short or extended periods of time. Historically, the equity markets have moved in cycles, and the value of the Fund's equity securities may fluctuate drastically from day-to-day. Individual companies may report poor results or be negatively affected by industry and/or economic trends and developments. The prices of securities issued by such companies may suffer a decline in response. These factors contribute to price volatility, which is the principal risk of investing in the Fund.

Small-Capitalization Risk — Small-capitalization companies in which the Fund invests may be more vulnerable to adverse business or economic events than larger, more established companies. In particular, investments in small-sized companies may pose additional risks, including liquidity risk, because these companies tend to have limited operating histories, product lines, markets and financial resources, and may depend upon a relatively small management group. Therefore, small-capitalization stocks may be more volatile than those of larger companies. These securities may be traded over-the-counter or listed on an exchange.

Style Risk — Since the Fund pursues a "value style" of investing, if the Adviser's assessment of market conditions, or a company's value or prospects for exceeding earnings expectations is wrong, the Fund could suffer losses or produce poor performance relative to other funds. In addition, "value stocks" can continue to be undervalued by the market for long periods of time.

9. Other:

At October 31, 2019, 65% of total shares outstanding for the Institutional Class Shares were held by three record shareholders each owning 10% or greater of the aggregate total shares outstanding. At October 31, 2019, 92% of total shares outstanding for the Investor Class Shares were held by two record shareholders owning 10% or greater of the aggregate total shares outstanding. These shareholders were mostly comprised of omnibus accounts that were held on behalf of various individual shareholders.

In the normal course of business, the Fund enters into contracts that provide general indemnifications. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated; however, based on experience, the risk of loss from such claims is considered remote.

10. Regulatory Matters

On August 17, 2018, the SEC adopted amendments to Regulation S-X. These changes are effective for periods after November 5, 2018. The updates to Registered Investment Companies were mainly focused on simplifying the presentation of distributable earnings by eliminating the need to present the components of distributable earnings on a book basis in the Statement of Assets & Liabilities. The update also impacted the presentation of undistributed net investment income and distribution to shareholders on the Statement of Changes in Net Assets. The amounts presented in the current Statement of Changes in Net Assets represent the aggregated total distributions of net

Notes to Financial Statements

October 31, 2019

investment income and realized capital gains, except for distributions classified as return of capital which are still presented separately.

11. New Accounting Pronouncement:

In August 2018, the FASB issued Accounting Standards Update 2018-13, Fair Value Measurement (Topic 820). The new guidance includes additions, removals and modifications to disclosures requirements for fair value measurements. For public entities, the amendments are effective for financial statements issued for fiscal years beginning after December 15, 2019, and interim periods within those fiscal years. Management elected to early adopt the removal and modifications of certain disclosure and delay the adoption of additional disclosures until the effective date.

12. Subsequent Events

The Fund has evaluated the need for additional disclosures and/or adjustments resulting from subsequent events through the date the financial statements were issued. Based on this evaluation, no additional disclosures or adjustments were required to the financial statements.

Report of Independent Registered Public Accounting Firm

To the Board of Trustees of The Advisors' Inner Circle Fund and Shareholders of LSV Small Cap Value Fund

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, of LSV Small Cap Value Fund (the "Fund") (one of the series constituting The Advisors' Inner Circle Fund (the "Trust")), including the schedule of investments, as of October 31, 2019, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund (one of the series constituting The Advisors' Inner Circle Fund) at October 31, 2019, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and its financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of October 31, 2019, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

The signature of Ernst & Young LLP is written in a cursive, handwritten style in black ink.

We have served as the auditor of one or more LSV Asset Management investment companies since 2005.

Disclosure of Fund Expenses (Unaudited)

All mutual funds have operating expenses. As a shareholder of a mutual fund, your investment is affected by these ongoing costs, which include (among others) costs for portfolio management, administrative services, and shareholder reports like this one. It is important for you to understand the impact of these costs on your investment returns.

Operating expenses such as these are deducted from the mutual fund's gross income and directly reduce your final investment return. These expenses are expressed as a percentage of the mutual fund's average net assets; this percentage is known as the mutual fund's expense ratio.

The following examples use the expense ratio and are intended to help you understand the ongoing costs (in dollars) of investing in your Fund and to compare these costs with those of other mutual funds. The examples are based on an investment of \$1,000 made at the beginning of the period and held for the entire period from May 1, 2019 to October 31, 2019.

The table below illustrates your Fund's costs in two ways:

- **Actual fund return.** This section helps you to estimate the actual expenses after fee waivers that your Fund incurred over the period. The "Expenses Paid During Period" column shows the actual dollar expense cost incurred by a \$1,000 investment in the Fund, and the "Ending Account Value" number is derived from deducting that expense cost from the Fund's gross investment return.

You can use this information, together with the actual amount you invested in the Fund, to estimate the expenses you paid over that period. Simply divide your account value by \$1,000 to arrive at a ratio (for example, an \$8,600 account value divided by \$1,000 = \$8.6), then multiply that ratio by the number shown for your Fund under "Expenses Paid During Period."

- **Hypothetical 5% return.** This section helps you compare your Fund's costs with those of other mutual funds. It assumes that the Fund had an annual 5% return before expenses during the period, but that the expense ratio (Column 3) is unchanged. This example is useful in making comparisons because the Securities and Exchange Commission requires all mutual funds to make this 5% calculation. You can assess your Fund's comparative cost by comparing the hypothetical result for your Fund in the "Expense Paid During Period" column with those that appear in the same charts in the shareholder reports for other mutual funds.

NOTE: Because the hypothetical return is set at 5% for comparison purposes — NOT your Fund's actual return — the account values shown do not apply to your specific investment.

	Beginning Account Value 05/01/19	Ending Account Value 10/31/19	Annualized Expense Ratios	Expenses Paid During Period*
<i>LSV Small Cap Value Fund</i>				
Actual Fund Return				
Institutional Class Shares	\$1,000.00	\$964.50	0.81%	\$4.06
Investor Class Shares	1,000.00	962.90	1.06	5.29
Hypothetical 5% Return				
Institutional Class Shares	\$1,000.00	\$1,021.07	0.81%	\$4.18
Investor Class Shares	1,000.00	1,019.81	1.06	5.45

* Expenses are equal to the Fund's annualized expense ratio multiplied by the average account value over the period, multiplied by 184/365 (to reflect the one-half year period).

Trustees And Officers Of The Advisors' Inner Circle Fund (Unaudited)

Set forth below are the names, ages, position with the Trust, term of office, length of time served and the principal occupations for the last five years of each of the persons currently serving as Trustees and Officers of the Trust. Trustees who are deemed not to be "interested persons" of the Trust are referred to as "Independent Board Members." Messrs. Neshet and Klauder are Trustees who may be deemed to be "interested" persons of the Fund as that term is defined in the 1940 Act by virtue of their affiliation with the Trust's Distributor. The Trust's Statement of Additional Information ("SAI") includes additional information about the Trustees and Officers. The SAI may be obtained without charge by calling 888-Fund-LSV. The following chart lists Trustees and Officers as of October 31, 2019.

Name and Year of Birth	Position with the Principal Trust and Length of Time Served ¹ in the Past Five Years	Occupation in the Past Five Years	Other Directorships Held in the Past Five Years ²
INTERESTED TRUSTEES^{3,4}			
Robert Neshet (Born: 1946)	Chairman of the Board of Trustees (since 1991)	SEI employee 1974 to present; currently performs various services on behalf of SEI Investments for which Mr. Neshet is compensated. **NOTICE TO SHAREHOLDERS
OF
LSV SMALL CAP VALUE FUND
(Unaudited)**

For shareholders that do not have an October 31, 2019 tax year end, this notice is for informational purposes only. For shareholders with an October 31, 2019 tax year end, please consult your tax advisor as to the pertinence of this notice. For the fiscal year ended October 31, 2019, the Fund is designating the following items with regard to distributions paid during the year.

Long-Term Capital Gain Distribution	Ordinary Income Distributions	Total Distribu- tions	Qualifying For Corporate Dividends Receivable Deduction ⁽¹⁾	Qualifying Dividend Income ⁽²⁾	U.S. Government Interest ⁽³⁾	Interest Related Dividends⁽⁴⁾	Short-Term Capital Gain Dividends ⁽⁵⁾	Qualifying Business Income ⁽⁶⁾
61.04%	38.96%	100%	59.15%	61.75%	0.00%	0.00%	100%	22.66%

- (1) Qualifying dividends represent dividends which qualify for the corporate dividends received deduction and is reflected as a percentage of ordinary income distributions (the total of short-term capital gain and net investment income distributions).
- (2) The percentage in this column represents the amount of "Qualifying Dividend Income" as created by the Jobs and Growth Tax Relief Reconciliation Act of 2003 and is reflected as a percentage of ordinary income distributions (the total of short-term capital gain and net investment income distributions). It is the intention of the aforementioned Fund to designate the maximum amount permitted by the law.
- (3) "U.S. Government Interest" represents the amount of interest that was derived from direct U.S. Government obligations and distributed during the fiscal year. This amount is reflected as a percentage of ordinary income distributions. Generally, interest from direct U.S. Government obligations is exempt from state income tax. However, for shareholders of the Advisors' Inner Circle Fund-LSV Small Cap Value Fund who are residents of California, Connecticut and New York, the statutory threshold requirements were not satisfied to permit exemption of these amounts from state income.
- (4) The percentage in this column represents the amount of "Interest Related Dividend" is reflected as a percentage of ordinary income distribution. Interest related dividends is exempted from U.S. withholding tax when paid to foreign investors.
- (5) The percentage in this column represents the amount of "Short-Term Capital Gain Dividends" is reflected as a percentage of short-term capital gain distribution that is exempted from U.S. withholding tax when paid to foreign investors.
- (6) The percentage of this column represents that amount of ordinary dividend income that qualified for 20% Business Income Deduction.

The information reported herein may differ from the information and distributions taxable to the shareholders for the calendar year ending December 31, 2019. Complete information will be computed and reported in conjunction with your 2019 Form 1099-DIV.
