

## Who We Are

Founded in 1994, LSV Asset Management is a majority employee-owned, quantitative value equity manager providing active management for institutional investors through the application of a proprietary investment model. As of December 31, 2020, LSV manages over \$104.3 billion in assets.

- Value equity focus is our sole business
- Limited product capacity
- Active client engagement

## Investment Approach

- Quantitative
- Deep Value Orientation
- Well Diversified

The LSV Emerging Markets Equity Fund (the “Fund”) seeks long-term growth of capital. Security selection focuses on companies whose securities seem out of favor in the marketplace but have shown signs of recent improvement. LSV uses a quantitative investment model that ranks securities based on fundamental measures of value (i.e. price to earnings ratio) and indicators of near-term appreciation potential (i.e. recent price appreciation).

\*Dividend Yield is an indication of the annual dividend income projected to be generated by the portfolio of stocks held by the Fund. To calculate the expected annual dividend of a security held by the Fund, the most recent dividend payment is multiplied by the expected frequency over a year. The Dividend Yield for the Fund is the sum of the dividend yields of the underlying securities of the Fund divided by the most recent applicable NAV of the Fund expressed as a percentage. The Fund's Dividend Yield may vary from this projection and will be reduced by the Fund's expenses.
